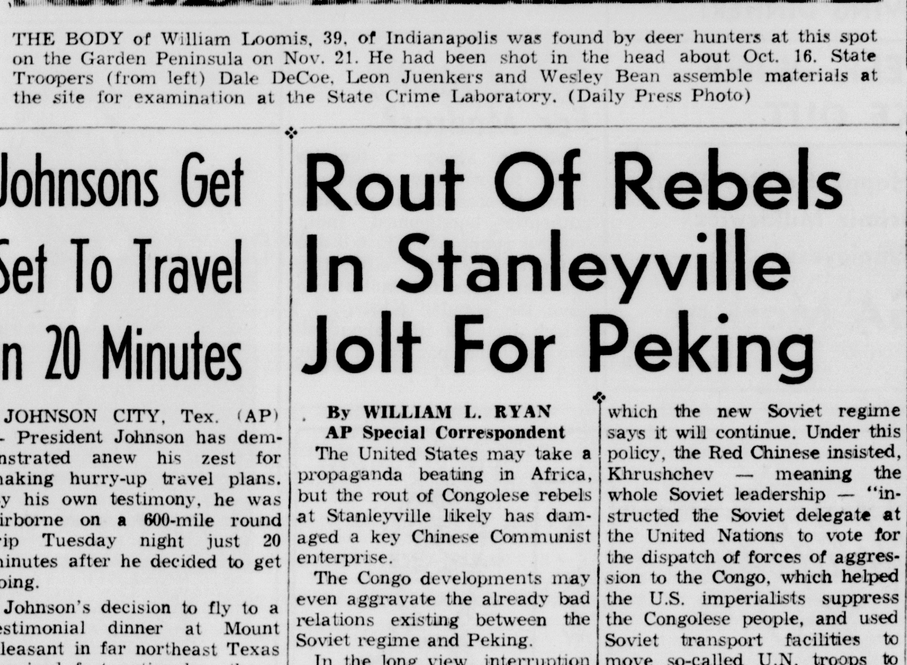
Garden Murder Mystery Suspect Held In Chicago



THE BODY of William Loomis, 39, of Indianapolis was found by deer hunters at this spot on the Garden Peninsula on Nov. 21. He had been shot in the head about Oct. 16. State Troopers (from left) Dale DeCoe, Leon Juenkers and Wesley Bean assemble materials at the site for examination at the State Crime Laboratory. (Daily Press Photo)

Auto Traced; FBI Seeking Another Man

By DAVE ANDREWS

An unemployed Chicago man was arrested and an intensive search launched for another today in connection with the kidnaping and slaying of an Indianapolis man whose body was found Saturday on the Garden Peninsula.

Delta County Prosecuting Attorney N. P. Chapekis said arrest was made in Chicago Tuesday night by FBI agents after following a trail of credit card forgeries which began in the Upper Peninsula.

Held in connection with the kidnap murder was Phillip A. Battaglio, 23. Search for another man was continued.

Chapekis said a first degree murder warrant would be sought for the slaying of William R. Loomis, 39, of Indianapolis. Indications are that the FBI will also seek a warrant on kidnaping charges.

Kidnaped Oct. 16

M. W. Johnson, head of the Chicago FBI office, said that Battaglio kidnaped Loomis on Oct. 16.

Loomis was last reported seen in Melrose Park, Ill, a Chicago suburb, on Oct. 15, two days before the first credit card incident occurred in the Upper Peninsula.

He had left Indianapolis on Oct. 12 for Melrose Park on a business trip and was reported missing Oct. 17 when he failed to return home. Police said he had planned to sell a white Jaguar sports car while in the Chicago area.

That car was located in Memphis, Tenn., where it had been left for repairs and not claimed. A second car rented by the fugitives in Memphis has not been located, according to Chapekis.

No U. P. Link

Police said that forgery of Loomis' credit cards, first reported Oct. 17 in Stephenson, also have turned up in Escanaba, Bark River, Gladstone and Manistique.

Chapekis said, however, that there has been no evidence uncovered linking either Loomis or Battaglio with anyone in the Upper Peninsula.

J. C. Michaels, industrial relations director for P. R. Mallory Electronics of Indianapolis, told the Daily Press that the company has no dealers or suppliers in the area.

Loomis reportedly has one sister living in Fort Wayne and another residing in lower Michigan near Detroit.

The investigation in the Upper Peninsula is being co-ordinated by FBI agent Robert Rangley of Marquette in connection with the Manistique State Police post and Chapekis.

Weapon Sought

Chapekis said that all signs point to the fact that Loomis, a purchasing agent for an Indianapolis electronics company, was slain at the location three miles northeast of Fayette State Park in Fairbanks Township where the body was found by a party of deer hunters Saturday.

A search of the area Tuesday by State Police officers from the Manistique post failed to uncover any leads on the murder weapon, however.

Chapekis said the weapon being sought is a pistol. Earlier reports indicated that it was of either .32 or .38 caliber.

A U. S. Army veteran of World War II, Loomis and his French war bride, Ginette, had two children, a boy 15 and a girl 12.

He had been employed by Mallory Electronics Co. since he left International Telephone and Telegraph in Fort Wayne, Ind., in 1960. Indiana police have not turned up any evidence that he had a criminal record.

Loomis' body is being held by the Anderson Funeral Home in Escanaba, pending positive identification through State Police crime lab analysis of dental records and fingerprints.

Cause of death has been established as a single gunshot wound in the back of the head.

Idle Youths To Be Trained In Job Corps

JOHNSON CITY, Tex. (AP) — Money to launch a nationwide campaign against poverty will soon be flowing to 32 states under the administration's antipoverty program.

The first 120 projects to win approval were announced Tuesday by Sargent Shriver, the nation's antipoverty chief. They'll get a total of $35 million out of of the $800 million approved by Congress for the first year of the program.

The biggest chunk — $15 million — will be used to establish 41 Job Corps training centers where idle youths, 16 to 21, will receive basic education and perform conservation-type tasks.

Detroit Tops List

A big recruiting job to get volunteers for the Job Corps will be launched next week. Most of the camps will be for boys, but a few will be set up for girls.

Another $13 million will go to a dozen cities and six rural areas for community-run programs aimed at a variety of targets, including teaching Indian children to speak English, training unemployed parents in job skills, and providing social services for impoverished areas.

Five cities with well-developed plans for spending the money will get the largest amounts: Detroit, $2.8 million; Los Angeles, $2.7 million; Washington, $1.4 million; Pittsburgh, $1.2 million, and Atlanta, $1 million.

Colleges Participate

Other projects for which funds have been approved include setting up neighborhood youth corps patterned on the Job Corps camps but for youths who will live at home, and helping colleges provide jobs for needy students so they can remain in school.

The first neighborhood youth corps will be established in 13 states, serving 10,500 boys and girls, 16 to 21.

Thirty-one colleges in the Chicago, Detroit and Washington areas have agreed to participate in the work-study program. They plan to find jobs for 4,500 students.

President Johnson, who pushed the antipoverty bill through Congress shortly before adjournment, was reported by Shriver to be pleased with the progress being made to get the program going. Shriver announced the first projects after a two-hour conference with the President.

WILLIAM O'DWYER, 74, Democratic mayor of New York City from 1945 to 1950, died Tuesday of a heart ailment. O'Dwyer was a former ambassador to Mexico after resigning as mayor.

Oswald Sullen, Lonely Man, Report Reveals

WASHINGTON (AP) — From the time he set out for the Soviet Union in September 1959 until he returned home three years later, Lee Harvey Oswald saw few Americans other than embassy officials.

But those he saw remember something of the sullen loneliness that seemed to set him apart from other men.

The freighter S.S. Marion Lykes, bound from New Orleans to Le Havre, carried only four passengers: a retired Army colonel and his wife, a young student off to France to begin his college studies and Oswald.

George B. Church Jr., the retired colonel, remembered Oswald to the Warren Commission as an unsociable, withdrawn passenger who was seasick quite a bit during the 16-day journey and who, in his brief conversations, bitterly described the hard times his mother had during the depression.

Book Not Returned

The colonel's wife made an attempt to get to know the reclusive passenger, but was repelled and even had difficulty obtaining his address for her Christmas card list. She lent him a book, which he never returned, then left him to the conversational care of the chief engineer, who seemed to feel that Oswald was "a smart boy."

Billy Joe Lord, the student who was Oswald's cabin mate, found him "a normal, healthy individual, mentally alert, but extremely cynical." Neither was an outgoing type, so conversation between them was sparse. Lord recalled Oswald's bitterness "about the fact his mother had to work in a drug store in Fort Worth" and once heard his views on religion.

"I do not know why we discussed religion," Lord told the commission, "except that possibly he noticed that I had a Bible. Oswald could not see how I could believe in God in view of the fact that science had disproved the existence of God and that there was only matter."

Treatise Confused

All three passengers thought Oswald was heading to a university, possibly in Switzerland. They had no idea he was on his way to defect to the Soviet Union. Lord didn't find out until a month later when his mother sent him a newspaper clipping from home.

Returning to the United States on the Holland-American liner Maasdam, Oswald penned a confused, heavily misspelled political treatise on ship's stationery outlining his disillusionment with both capitalism and communism.

"I have lived," he wrote, "under both systems, I have sought the answers and although it would be very easy to dupe myself into believing one system is better than the other, I know they are not."

Japan's Premier Will Visit U. S.

TOKYO (AP) — Prime Minister Eisaku Sato of Japan plans to visit the United States in January, it was disclosed today in Tokyo.

Etsusaburo Shiiina, Japan's foreign minister, said negotiations are under way with American officials for the visit. No date has been set.

Today's Chuckle

If you're going to complain about the way the ball bounces don't drop it.

Detroit Dailies 'Speak Again' As Long Strike Ends

DETROIT (AP) — "The longest strike shutdown of metropolitan daily newspapers in the nation's history is now ended. After 134 days of enforced silence, we speak again."

With that comment, in a long front page editorial, the Detroit Free Press announced that it was publishing again for the first time since July 13. That was the day the morning Free Press and afternoon Detroit News were struck.

The Free Press, its editions dated Nov. 25 and its front page banner announcing "30 White Hostages Slain by Congo Rebels" was back on sale Tuesday night. The News was scheduled to publish today.

The first Free Press run hit the street not long after a new contract was signed by it and the News and Local 13 of the International Printing Pressmen.

Readers Happy

The Pressmen and Plate and Paperhandlers Local 10 struck the two newspapers in a dispute over new contracts. The paperhandlers were the first to settle but it was not until last Saturday that terms of a new contract were agreed on by the Pressmen.

Commented the Free Press in its editorial:

"Since we last spoke to you... more than 184,260,000 copies of the Detroit Free Press and the Detroit News have not been printed. They are gone forever, unrecoverable."

The return of the newspapers was greeted happily by Detroiters.

Robert Johnson, 49, bought three copies of the Free Press, commenting "I certainly have missed them." A feeling seconded by John H. Andrews, 72, a chef, who remarked "I missed practically everything" as he bought his paper.

The paper sellers were equally pleased.

"Good To Be Back"

Newsstand worker Floyd Karmanoski, 56, said that in less than two hours he sold 150 papers in comparison to the 65 or 70 he used to sell during the same period before the strike.

And Free Press circulation department employe Jack Kincel, 59, who seized a bundle of the papers and began selling them outside the Free Press building, said "I got the idea with all the people out here that somebody should be here to sell papers. I got a dollar each from two persons."

Kincel said he sold 500 papers in the first hour or so.

The people whose jobs had been affected by the strike were happy also.

Bill Leatherman, 52, a Free Press printer, said "it feels mighty good. It's a great relief traveling around from place to place and not knowing what hours you're going to work and where."

Echoed Grady Perkins, 35, a pressmen at the Free Press, "It feels good to be back. It's just like there was nothing ever wrong."

And L.B. (Red) Dunnigan, a deskman in the Free Press editorial department, summed it up with "I think everybody feels good to be back. You're always glad to get back home."

2 U. S. Planes Missing In Laos

BANGKOK, Thailand (AP) — Two T28 planes and four U.S. airmen have been missing for six days on a ferry flight from northeast Thailand to South Viet Nam, American military sources said today.

The sources said the two planes, each carrying two pilots, were on a flight from Udorn, a Thai-Laotian border town to Danang, in South Viet Nam.

Their normal route would have crossed the Laotian panhandle for about 120 miles.

Informants said the pilots were to pick up two additional T28s transferred from the U.S. military assistance program in Viet Nam to the U.S. Air Force T28 training program in Thailand.

They said an intensive search had been made since late last Thursday when the two planes failed to arrive at Danang.

NO PAPER THURSDAY

Thanksgiving Day will be observed as a holiday by the Escanaba Daily Press staff and no paper will be published Thursday, Nov. 26. The next issue will be Friday, Nov. 27.

Detroit Given $2,836,172 To Help Jobless

DETROIT (AP) — A $2,836,172 federal grant has been hailed by Detroit Mayor Jerome Cavanagh as giving "us the opportunity to be the first city to launch an all-out effort against poverty."

The grant was revealed Tuesday, when the Johnson Administration, heralding what it termed the first "fulll scale poverty attack," allocated more than $32 million for 120 antipoverty projects in 32 states. The Detroit allocation was among the largest individual grants.

The action was announced by Sargent Shriver, director of the Office of Economic Opportunity, after a two-hour conference with President Johnson at the LBJ ranch near Johnson City, Tex.

Youth Corps Included

The Michigan Economic Opportunity Office received a grant of $172,000 for community action programs. And a grant of $585,000 went to the Detroit Board of Education for a neighborhood youth corps program, designed to help young persons get jobs so they can stay in high school.

The administration also named nine Michigan colleges and universities to participate in a work-study program.

The participating schools are Detroit Institute of Technology, Madonna College, Marygrove College, Mercy College, Merrill-Palmer Institute, Michigan State University, University of Michigan, Wayne State University, and University of Detroit.

Shriver said this program will assist needy college students by providing part-time jobs on and off campus. The federal government will provide 90 per cent of the cost of this program.

Cavanagh said news of the grants was "particularly gratifying to me because it demonstrates that our decision, early this year, to prepare an antipoverty program, months before Congress had adopted the Economic Opportunity Act, was a sound one.

"It is our hope...we can take the bold, imaginative steps that will open the doors of economic and education opportunities to the least privileged residents of our community."

Centers Planned

The mayor said the federal grants are for Total Action Against Poverty programs that will cost $3,253,879. And he said, the State of Michigan expects to get a $3,245,360 one-year grant for "a work experience program for 3,000 Wayne County welfare and Aid to Dependent Children recipients, more than three-quarters of whom live in Detroit."

Cavanagh estimated the grants would finance local antipoverty activities to mid-1965 by the city and schools.

Cavanagh said the program would be launched with the opening of four "Community Action Centers" and 20 branches in those parts of the city where there is a high percentage of families whose income is less than $3,000 a year.

He said the centers will offer numerous services to these residents, such as medical examinations, cultural enrichment programs, and family and employment counseling.

Reward Of $5000 Up For Killer Of Bus Driver

DETROIT (AP) — A $5,000 reward is being offered for the killer of a Detroit bus driver.

Lucian A. Fryling, 40, died last Wednesday shortly after being shot by a holdup man on his empty Department of Street Railways bus.

Fryling was shot while struggling with the bandit aboard the moving bus. The vehicle crashed into an apartment house, and the bandit fled on foot, leaving the dying Fryling behind.

The reward for information leading to the arrest and conviction of the killer is being offered by Division 26 of the Amalgamated Transit Union. Fryling was a member of the union.

Johnsons Get Set To Travel In 20 Minutes

JOHNSON CITY, Tex. (AP) — President Johnson has demonstrated anew his zest for making hurry-up travel plans. By his own testimony, he was airborne on a 600-mile round trip Tuesday night just 20 minutes after he decided to get going.

Johnson's decision to fly to a testimonial dinner at Mount Pleasant in far northeast Texas required fast action by others, too.

Mrs. Johnson, he related, took just 11 minutes to drive half a mile to their ranch home, change her clothes and get to the plane in time for departure.

Secret Service agents and White House communications experts also had to step lively.

The dinner that prompted such haste honored Marvin Watson, a steel company executive who is Democratic state chairman. About 900 friends turned out at the bunting-draped National Guard armory.

Watson, borrowed by Johnson to act as a key aide during the fall election campaign, is rumored to be in line for a top White House post.

Nothing said at the dinner discouraged such speculation. Many of the 14 speakers on the program seemed downright mournful as they hinted that Watson would be moving east.

Johnson himself said nothing about a new assignment for Watson, 39, who now is assistant to the president of Lone Star Steel Corp. He did say Watson was "as wise as my father, as gentle as my mother, as loyal and dedicated and as close to my side" as wife Lady Bird and as effective as Texas Gov. John B. Connally whom the President described as "my best friend."

Rout Of Rebels In Stanleyville Jolt For Peking

By WILLIAM L. RYAN
AP Special Correspondent

The United States may take a propaganda beating in Africa, but the rout of Congolese rebels at Stanleyville likely has damaged a key Chinese Communist enterprise.

The Congo developments may even aggravate the already bad relations existing between the Soviet regime and Peking.

In the long view, interruption of Peking's plans to gain a foothold in Africa's most critical area may prove more important to the West than the bruised feelings of leaders of new African nations.

Kremlin Looks On

The Congo developments strengthen an already strong impression that the Peking campaign in Africa has been directed against the Soviet Union as well as the United States and the West.

This may explain why Moscow seemed slow in reacting to the events, which easily could have mushroomed into a big international crisis as soon as the Kremlin heard of plans to use U.S. transport planes to ferry Belgian troops to the rebel capital at Stanleyville.

Ordinarily, U.S. involvement against a left-oriented rebellion would have produced clamor and threats from Moscow. This time the response was mild.

Time and again Peking has challenged Moscow in Africa.

Only last week in a violent attack on supporters of the fallen Nikita Khrushchev — an assault obviously aimed at men still in power in Moscow — Red China accused the Russians of perfidy in the Congo.

Timetable Upset

This was an attack on the peaceful coexistence policy which the new Soviet regime says it will continue. Under this policy, the Red Chinese insisted, Khrushchev — meaning the whole Soviet leadership — "instructed the Soviet delegate at the United Nations to vote for the dispatch of forces of aggression to the Congo, which helped the U.S. imperialists suppress the Congolese people, and used Soviet transport facilities to move so-called U.N. troops to the Congo."

Red China, busy for some time trying to shut the Russians out of revolutionary movements in Asia and Africa, appears to have made Africa the main cold war arena. All Red Chinese embassies in Africa seem lavishly supplied with money to buy subversion.

Peking's plan appears to have been to entrench a usable Communist government in the Congo, Africa's heart, and work from there toward domination of other areas. If this was the case, the timetable now may be badly upset.

SEES CARLSON SLAIN

BRUSSELS (AP) — A Belgian refugee from Stanleyville reported today he had witnessed the killing of American missionary Paul Carlson by Congolese rebels.

The refugee, Fernand Deprey, arrived in Brussels this morning with the first planeload of refugees from the former rebel capital in the northeast Congo.

"I was a prisoner in the Hotel Victory," Deprey said. "Carlson was in a group of about 150 who were forced to sit down in the street.

"When the rebels heard the paras (paratroops) were on the way, they opened fire into the group and Carlson was shot down. Afterwards as we went to meet the Belgian troops I saw his body in the street. He had been shot through the head."

Deprey said he had known Carlson well while they were prisoners of the rebels.

"He was very cheerful and a great moral example," Deprey said.

Troopers Battle Saigon Rioters

SAIGON, Viet Nam (AP) — About 2,000 students rioted in Saigon today demanding the ouster of Premier Tran Van Huong and were dispersed by paratroopers with bayonets and tear gas.

Martial law was declared after a day of violence that saw scores wounded.

In an attempt to end the civic tumult and get on with the war against Communist guerrillas, U.S. officials warned that American aid may be curtailed unless the disorders end, reliable sources said.

It was the fourth straight day of disorders and U.S. authorities are telling the Vietnamese that "the patience of the American public is wearing out," one informant said.

At least 100 persons, 60 of them police and troops, were injured in the melee around the headquarters of the politically powerful national Buddhist organization.

Premier Houng's predecessor, Maj. Gen. Nguyen Khanh, was brought down by riots in August. But the rioting today exceeded the August riots in violence.

The Buddhist hierarchy declared open political war on Huong's government and demanded immediate release of demonstrators arrested previously. Huong showed no sign of giving in.

All American military personnel and civilians were warned to stay off the streets and to avoid crowds if they had to move about the city

Sports Games Sure To Score

Good sports or not, your family will marvel at the variety of intricate games this Christmas that bring even big league sports down to table-size.

Whether your son tried out for quarterback or water-boy, he'll appreciate the latest NFL electric football game including a magnetized ball and a kicker-passer device that is extraordinarily real.

With the introduction of so many indoor ice rinks, ice hockey has become a "regular" with the high school crowd. It is no surprise, then, to see an electric hockey game featuring an icy-pro-puck to appear on the game scene.

Billiards has been exacavated from those dark and sinister tombs called pool halls, given a little dusting off and introduced to the entire family.

Stores To Have Holiday Opening Here On Friday

The 1964 gala holiday shopping season will open in Escanaba on Friday, Nov. 27, with store inventories at their peak and the promise that shoppers will find exactly what they want along the city's mile-long Santa Claus lane.

Many special events from the arrival of Santa to Christmas shopping days when stores will be open to 9 p. m are arranged by the promotion committee of the Retail Division of the Escanaba Chamber of Commerce.

Santa will arrive in Escanaba by plane on Friday, the day after Thanksgiving, at 12:30 and will parade from the airport down Ludington St. at 1 p. m.

After the parade Santa will be at the Delft Theatre for a free movie for children sponsored by the State Bank of Escanaba. The movie, a program of interest to children, will be from 2 to 4 p. m.

Headquarters for Santa Claus will be at the corner of Ludington and 12th St., where a building at 1123 Ludington is being specially decorated for him. He will be "at home" to all youngsters from 2 to 4 and 6 to 8 p. m. on Fridays, and from 2 to 4 p. m. on all other days, including Saturday. Santa will be at the Delft Theatre, not his headquarters, on Friday this week.

The special shopping nights, when stores will be open to 9 p. m., will begin on Monday, Nov. 30.

Shopping nights also are December 2, 7, 9, 14, 16, 21, 22, 23 plus each of the Friday nights as usual. Stores will close earlier on Christmas Eve.

The Escanaba Daily Press special Christmas edition is out today. In addition to the regular Retail Division vision has made arrangements to distribute the special edition on the K. I. Sawyer Air Force Base.

Christmas Club savings for Escanaba and Delta County set a new high this season, with a total of $465,446 being distributed to Club members from the county's six banks. This total compares to $426,500 last year.

The Christmas Club checks are now in the mail and will be received by the savers on Friday.

Happiness May Be Leather Coat

The gift of a leather coat covers so much happiness easily achieved this holiday season. There's a wide range of smart styles, exciting colors and interesting textures, advises Leather Industries of America.

Leather coats, jackets and other apparel come in a greater than ever selection to make Santa's choice of milady's Christmas gift a real snap.

A Christmas package, to delight any lady, contains a lightweight leather coat in deep red, olive green, true blue or one of the popular brown shades. In buttery suede or sleek, smooth leather—lined in shearling or silk—these full-length beauties are tops in beauty, comfort and long-term wearability.

Leather wear is equally fashionable and wearable on the ski slopes and in other snowy environments. Gala gifts include leather ski pants and shearling-lined parkas as well as exciting after-ski fashions such as stoles, skirts and pullovers interpreted in bright, dramatic colors and novel leather textures.

And remember, there's a happy dividend included in your Christmas leather gift! The new leathers are as easy to care for as they are fun to wear. Suede leathers need only occasional dry cleaning and smooth leathers can be wiped clean with a damp cloth.

Whether you make your gift of leather dazzling, daring, dramatic or decidedly utilitarian, remember it's easy to care for and is durable as well as fashionable.

Ancient Egyptians put dolls in tombs to perform menial tasks for the deceased in the other world.

Worry of
FALSE TEETH
Slipping or Irritating?
Don't be embarrassed by loose false teeth slipping, dropping or wobbling when you eat, talk or laugh. Just sprinkle a little FASTEETH on your plates. This pleasant powder gives a remarkable sense of added comfort and security by holding plates more firmly. No gummy, gooey, pasty taste or feeling. It's alkaline (non-acid). Get FASTEETH at any drug counter.

Polk Prepares New Directory

The assembling of information for the 1965 R. L. Polk & Co. Escanaba, Gladstone and Wells directory is beginning and will continue for four or five weeks, it is announced by Mrs. Ann Rognlie, superintendent for Polk.

An office for the firm has been established by Mrs. Rognlie at 1101 Ludington St. in Escanaba, room 211 over the Home Supply Co.

"We will hire about 10 local persons to work in canvassing for the directory," she said. "If the individuals are not at home when we call on them, a message will be left asking them to telephone us so that we may complete the information. Sometimes it may be necessary for our people to make return calls."

The Polk name is known to millions as an authoritative source for information on correct names, addresses, business relationships, and other pertinent facts.

Only the residents of the communities 18 years of age and older appear in the directory; and the canvassers ask for addresses, occupations, where they are employed, and whether they own or rent.

This new vista dome kennel truck of heavy gauge steel illustrates the way toyland reproduces the most luxurious facets of luxury living. This de luxe truck permits toyland pooches to enjoy sunlight en route to dog shows. The same luxury is provided for horses.

With The Deer Hunters

Getting a buck is not unusual for Mrs. Ed Peacock Sr. of Bark River Rte. 1, a woman hunter who got her buck both last year and this. She filled her license this year at 5:30 p. m. Sunday in the Watson area with a 125-pound buck.

★ ★ ★

Hunting from the Escanaba River Lodge this year are Bob Marshall, Jack Walton, Crazy Legs Raguso, Chef Harold de Wyk, Steve Powers, Harland Droege, Henry Pawelski, Paul Dombey, Bill Kovalak, Irvin Nizyborski, R. C. Owen, Jack Beauchamp, Zack Swan, Dick Alexsi, Chester Olszeski, Joe Babis, Doc Sackett, Jim Colson.

★ ★ ★

Ensign Hunting News

Stanley Dominick of Ensign was changing a tire on the car owned by his sister-in-law, Ann Mauhar, also of Ensign, at her home Friday at 8:45 a. m. when his mother-in-law, Mrs. Mauhar, called from the back door that a buck was standing at the edge of the clearing. Stan loaded his gun, took perfect aim and shot his deer right through the heart. The buck had eight points and weighed 130 pounds.

Richard Godlewski of Detroit shot a spikehorn buck in the Ensign area. Godlewski stayed at the Stan Dominick home.

Walter Dzuida of Detroit, hunting from the Cutright Motel in Ensign filled his special permit with a large doe, the first part of the hunting season.

Glen Lundin of Ensign hunting in his Ogontz neighborhood bagged a 4 point buck Sunday, Nov. 15.

Bertil Gustafson of Ensign, hunting near the Harold Gustafson farm shot an 8 point, 150 pound buck on the opening Saturday at 10 a. m.

George Wickstrom hunting on his Ensign farm Sunday morning, Nov. 15, killed a 140 pound, 8 point buck.

Arizona, Alaska and Hawaii, in that order, were the last three states admitted into the Union.

Miss Luukkonen Is Bride Of Robert Zellar

SENEY—Miss Karen Luukkonen, daughter of Mr. and Mrs. Smeltz Luukkonen, Seney, became the bride of Robert Zellar, son of Mr. and Mrs. George Zellar of Germfask, in a single ring ceremony performed Saturday, Nov. 21, at 1 p. m. in Methodist parsonage by the Rev. Stephen Chapko.

Attendants were Mr. and Mrs. Russell Zellar, uncle and aunt of the bridegroom.

The bride wore a two piece suit of pink with black accessories and a corsage of red and yellow roses.

The reception was held at Seney Town Hall for relatives from Trenary, Ishpeming, Germfask, Lakefield and Curtis. Mrs. Melby Flygare, cousin of the bride, served the wedding cake.

Mrs. Luukkonen wore a two piece suit of black and white and the bridegroom's mother, a black and red suit. They and the bride's grandmother, Mrs. Alma Ylinen, Trenary, were presented with corsages of roses.

The couple will reside at the Zellar home near Germfask.

S/Sgt. Don Sadler returned to Panama City, Fla., after visiting his parents, Mr. and Mrs. Earl Sadler.

Mr. and Mrs. William Marlette returned to Detroit following a visit with her parents, the Roy McDowells.

Mr. and Mrs. Mark Ketola and family, Milan, and Robert Bell, Ann Arbor, were successful hunters in the area. They were guests of relatives.

George and Art Wiertella, Detroit, spent several days at the home of their mother, while deer hunting.

Mr. and Mrs. Blaine Short and daughter of Kalamazoo were guests of relatives.

Porpoises travel in vast numbers in the Gulf of Aden. Some schools number thousands of jumping mammals. They leap 20 feet out of the water.

Tape Recorders Now In Elegant Decorator Style

If you've been putting off purchasing a tape recorder because the design might upset your decor, perhaps this is the time to choose.

One leading manufacturer, Revere-Wollensak, now offers recorders in decorator-styled models to enhance home furnishings.

For those preferring the conventional recorder, there are styles in walnut and teak-wood cases with rich brown tones and brushed gold paneling which lend tasteful elegrance to any decor.

These recorders provide four-track quality stereo and monaural record and play-back features. They also boast separated, detachable wing speakers which swing on hinges to cover the front of the machine, lock for easy portability and hide the tape reels and controls.

Other new units which add contrast to room's decor are the latest models in a series of automatic tape recorders.

Encased in handsome walnut and teak wood cabinets they feature their own powerful amplifiers, separate bookshelf or wall speakers.

Most women who are perplexed by the mechanics of changing tapes, will welcome the music industry's first automatic tape-changing system. Using simple tape cartridges it automatically incorporates threading, playing, rewinding and changing of the tapes. Up to 20 cartridges offering 15 hours of stereophonic music can be played automatically without interruption with just a push of a button.

Tape recorders such as these are more than just recording machines for the living room or den. They're fine home furnishings, too.

Promises Of Gas For Peninsula Backed By PSC

LANSING (AP) — The State Public Service Commission reports it is intervening before the Federal Power Commission in all cases of promises to supply natural gas to Michigan's Upper Peninsula.

Chairman Peter Spivak said the commission is intervening in all the cases to make sure that the interests of the state will be protected.

Spivak said natural gas has been promised for too long a period of time for it to be lost or indefinitely delayed through possible economic warfare between competitors.

Three separate petitions are before the federal commission for consideration.

Spivak said the proposals may be overlapping and that it is expected the commission will consolidate them into one case for hearing purposes.

It is expected that all the cases will be combined for one hearing on Jan. 26 or shortly thereafter, he said.

Northern Natural Gas Co. proposes to extend its facilities into the Mesabi Range area of Minnesota and to the Upper Peninsula by way of Ironwood to Marquette with spurs northward to Houghton, Hancock and the Calumet area and southward to Randville, Iron River and Escanaba.

Michigan Consolidated Gas Co. has received permission from the state commission to build a pipeline from Menominee to Powers, then westward to Iron River and eastward to Escanaba.

Michigan—Wisconsin Pipeline Co. proposes to add a mile of pipeline to connect at Menominee with Michigan Consolidated facilities.

Big Family Fun In New Games

Nothing expresses the spirit of "togetherness" more eloquently than a group of children, teen-agers, adults or a happy conglomeration of all of them, huddled happily over an exciting game.

Such games as chess, checkers, dominoes and bingo are games that have proved to be consistently popular and enduring. "Parcheesi", a game that is mentioned frequently in our literature dating back to the Victorian era, actually was first introduced 97 years ago by the firm of Selchow and Righter, who also brought us the immensely popular crossword game "Scrabble" which swept the nation a number of years ago. "Scrabble" helps stimulate interest in new words and offers exciting educational play in versions for the junior crowd as well as its regular game for more advanced students and adults.

It's easy to check off many names on your Christmas list with the gift of games. There are games that make it fun to learn—whether it's arithmetic for the primary grader, history for the junior high schooler or spelling—through such games as anagrams.

Games based on famous Civil War battles and other historical events. . .map games which make play out of the study of geography . . . games such as "Monopoly" and other business and financial transaction games are but a few of the many different games that offer fun for the young set, but often entice the older folks into the challenge.

Joint Airports Listed By CAB

WASHINGTON (AP) — The Civil Aeronautics Board ruled Tuesday that several Michigan and Wisconsin communities should be served by consolidated airports.

The CAB made these prinicpal rulings in its north central area airline service airport investigation, involving points served by North Central Airlnes:

Ironwood, Mich., and Ashland, Wis., to be served by a single airport. Similarly, Green Bay to be linked with Clintonville, Wis., and Oshkosh to be paired with Appleton.

A new area airport at Mosnee, Wis., to serve the central Wisconsin points of Wausau, Marshfield, Wisconsin Rapids and Stevens Point.

No change to be made in reference to Rhinelander, Land O'Lakes, La Crosse, Wis., and Winona, Minn., now served as separate intermediate points.

The board said consolidation of Ashland and Ironwood would result in annual savings of about $28,000 "to North Central and indirectly to the federal government and render unnecessary the expenditures of $171,765 for airport improvement costs at Ashland."

OLDEST CONSTITUTION

Oldest state constitution west of the Alleghenies is that of Wisconsin, which state still is governed by its original constitution.

For your contribution to Christmas Seals in their fight against TB and other respiratory diseases . . . and for the time and effort you so generously gave.

Thanks for the Gift of Good Health—From Your TB Association

BACK INTEREST

Since fashion favors a variety of bared-back styles in dresses for late day and dress-up, Trifari suggests costume jewelry pins in pairs to wear on the side of a back plunge or at the lowest part of the back.

Pick a pair in gay flower designs and match them with earrings to please your "special girls."

Special Service Of Communion At St. Stephen's

The Holy Communion wi be celebrated at 10 a. m Thanksgiving Day in St. Steph en's Episcopal Church, Escana ba, according to the Rev. Be F. Helmer, rector.

A special offering to be re ceived at the service will go t the Presiding Bishop's Fund f World Relief. Under this plar each one dollar given will pro vide $26 worth of food for th needy throughout the world.

Traditional Thanksgiving mu sic will be provided at the ser vice by the St. Stephen's choi directed by Mrs. James Bo man.

Rock

Award Trip

Young people from the 4th grade and up who have attend ed the Family Bible Hour reg ularly since Labor Day are go ing on an award trip Saturday Nov. 28. They will go to the Munising High School fo swimming and playing in the gym. During the afternoon they will travel to Marquette for shopping and sightseeing.

MAKE OLD COAT CHIC

A handy way to dress up a cloth coat for winter is to have the cloth collar removed. Then tuck a little fur ascot—leopard or mink—in at the neckline.

MRS. DAVID C. REM, who was married in a ceremony Saturday, Nov. 21, at St. Joseph's Catholic Church, is the former Marilyn Roberta Dart, daughter of Mr. and Mrs. Ernest Dart, 321 S. 9th St. The bridegroom, an Airman Second Class in the U.S. Air Force, is stationed at K. I. Sawyer, and the couple will live in Little Lake. (Ridings Photo)

Social-Club

TOPS Meeting

Wee Whittle Wates TOPS Club will meet Wednesday at 7 p. m. in the office of Dr. Karl E. Gray. All members should be weighed in before the holidays.

Tickets For Ball Still On Sale

Tickets for the Escanaba Woman's Club annual Charity Ball are still available at Gartner's, Gust Asp's, Delta Music Center and West End Drug, and also may be obtained at the door the night of the party. The Charity Ball, outstanding social event of the pre-holiday season, will be held Saturday, Nov. 28, at the Dells Supper Club.

GROOMING CACHE

The girl who would be well-groomed at all times keeps a sewing kit, a clean pair of white gloves and an extra pair of hose tucked away in her desk drawer at the office.

Union Service Thanksgiving At Covenant

Pastor Donald Wolf of Calvary Baptist Church will speak at the traditional Thanksgiving service, sponsored annually by the Salvation Army, the Evangelical Covenant Church, and Calvary Baptist Church.

The service will be held at 10 a. m. at the Evangelical Covenant Church on Thanksgiving Day.

Mrs. Emer Peterson will be soloist for the service, and Major Orville Butts of the Salvation Army will read the scripture and lead the prayer.

Church Events

Salem Lutheran

Thanksgiving services will be conducted at Salem Ev Lutheran Church Thursday at 10 a. m.

★ ★ ★

Immanuel Service

Services of Thanksgiving will be conducted by Pastor Gordon Thorpe at 10 a.m. Thursday, Thanksgiving Day, at Immanuel Lutheran Church in Escanaba.

Most cooks like to trim the excess fat from the outside of beef short ribs before braising.

Personals

Judge of Probate Marie D. Peters left this afternoon by airliner for Lockport, N. Y., to spend the Thanksgiving holidays with Mr. and Mrs. Richard H. Weber. She will be joined in Detroit by her sister, Miss Ruth Peters of Ann Arbor. Mrs. Weber is the former Esther Peters.

Cantata At Eben Church Sunday Night

TRENARY — A Christmas cantata, "A Song Unending" by John W. Peterson will be presented by the choir of Our Saviours Lutheran Church of Eben Sunday, Nov. 29 at 8 p m.

Members of the choir are: soprano, Mrs. Tauno Jarvinen, Mrs. Dennis Hautamaki, Mrs. Waino Kangas, Ann Wieland and Donna Posio; alto, Sadie Louma, Janet Swajanen and Susan Kangas; tenor, Terry Anderson and Fred Woimanen; bass, Nathan Jarvinen, Edward Louma, Martin Hendrickson and Tauno Jarvinen. Mrs Seiba Brown is the pianist and Mrs. William Bucholtz is the director.

The date for the cantata has been moved to Nov. 29 because Pastor Jarvinen and family will leave Dec. 1 for Port Arthur, Canada wheer they will serve two congregations Coffee will be served following the program in the church dining room.

The choir will also sing "Hosanna, Son of David", during the 9 a. m. service Sunday.

Small Scale Has Big Scale Uses

A little gift can give big pleasure at Christmastime, especially when the gift is the "Golden Ounce" scale.

This ingenious little gold-finished scale weighs only an ounce, takes up less room than the average pocket comb and slips into pocket or purse without making a bulge.

It's the ideal gift for inveterate travelers, busy correspondents, or those who "have everything." The scale features both ounce and metric readings and will weigh mail or small packages for the proper amount of postage for any location in the world. A special chart comes with the scale, giving air mail first and third class postage rates for from one to four ounces.

The "Golden Ounce," made by the Triner Scale and Manufacturing Company of Chicago, comes in its own attractive carrying case.

ON HAND for Christmas are sleek stretch satin gloves styled in a handsome wristlet style. In the popular brief length, the gloves are brilliantly buttoned with rhinestones to add the proper gamour note to elegant holiday costumes.

Gloves Go Hand In Hand With Christmas Time

Glitter, glamour and gifting are all part of Christmas. Another is the collection of giftable gloves shown in both leather and fabric in all lengths and varieties, but always in keeping with the mood of the holiday season.

Even the girl who "has everything" will welcome the luxury of leather gloves, say the creators of Aris gloves. There's a wide selection from Santa's pack on hand.

In an array of multiple lengths and magnificently crafted for flattery, are many glove classics in the finest of French kidskin. Each style is an ideal gift — the short, mid-arm high, to-the-elbow or over-the-elbow gloves — but given together as a wardrobe they make a truly lavish gift.

In snowy white, black, bone, otter, brown and navy, gloves provide hand-in-hand coverage for any costume from Christmas onward. Although cold hands mean warm hearts, both will be warm when you choose gloves lined in sheer silk or cozy wool. So comfortable, too! Even the mid-arm glove is given a suggestion of dressmaker detailing to better accessorize a classic costume and invoke "oh's and ah's" when drawn from its Christmas wrappings.

Since the Yuletide season means gala doings and long gloves — the formal glove, 16-button high, in icy white or inky jet kid shows its hand. A luxury accessory, this is the "sable" of any glove-gifting.

Like their leather counterparts, fabric gloves will also keep fingers in a holiday mood! Soft double-woven cottons as well as nylons, in both short and to-the-elbow gloves, contribute to the sparkle of the season with spatterings of glitter, glowing pearls, or shiny jet trims.

Sleek stretch satin gloves intended for the grandest of gala occasions are lighted with rhinestones and brilliants to bring a look of opulence to decollete satin, velvet and brocade gowns.

Gifts to get as well as to give, any of these flattering gloves will tempt the giver into adding her own name to her own Christmas list!

Buffet Dress-Up Easy To Arrange

Add instant fun into any of your holiday meals. Using a red tablecloth (or red felt), you put everyone in a holiday mood. Some greenery (pine, fir branches) provides a festive look. Napkins tucked in gay holders are easy to make: cut 3" lengths of cardboard tubing (use inside rolls of gift-wrap paper, paper towels, etc); cover lower ⅔ of each tube with a strip of red paper, the upper third with pink paper. Add "belt" cut from colored plastic tape or draw on. Paste bow-tie under chin, paste strip of cotton above the forehead as hatband.

A decorative candleholder adds a sparkling touch: cut a 12" length from the cardboard tube inside a roll of tissue paper. Cover with foil. Stuff with tissue paper, so it will stand firmly. Take 3 different sized paper plates, cut a hole in center of each, attach one at bottom, at middle and top. Push candle securely into tissue paper in the tube, light it, set back and listen to the compliments.

Caspar (or Gaspar), Melchior and Balthazar were the three Biblical wise men of the East.

Great Idea; Shoe Gift Certificate

Looking for an unusual gift for husband, brother or other male in the family? Give him a gift certificate from his favorite shoe store.

During the Yuletide season, let him step out smartly or relax completely in any one of the season's newest shoe styles. Shoes in soft, supple-smooth grained or brushed leathers that will make him foot-happy all year long in the comfort of genuine leather, says the Shoe Fashion Service.

Biggest news in men's shoes this year are casual slip-ons and chukkas in waxy leather, in which the natural color and texture of the leather are smartly high-lighted.

Gift Diamond Keeps Its Value Over The Years

If you are consdering making it a "diamond Christmas" this year, remember, a diamond is an excellent investment — a truly practical gift.

Diamond jewelry, while the most exciting and memorable of all gifts, is within the reach of even a modest budget, points out the Jewelry Industry Council.

There are real diamond gifts priced at $100 and under that will be treasured for a lifetime. And the eternal magic of the diamond is just as strong whether it is a single small stone or a whole blazing extravagance of glitter.

Your jeweler has a wide selection of diamond jewelry from which to choose. There are beautiful gold pins with a single diamond that are bound to thrill any girl.

Many are also set with other precious stones and accented with small diamonds. Also modestly priced are petite, sparkling diamonds suspended gracefully from handsome gold chains — gifts that will never lose their beauty, value or elegance.

Diamonds, cut by a skilled craftsman, bring added sparkle to pins, earrings and bracelets of yellow or white gold. A diamond bracelet, of course, carries a glow of brilliance sure to make this Christmas the most dazzling ever.

Small, beautifully-cut diamonds add exciting glamour to earrings or create a necklace clasp to give pearls a priceless look. A few carefully selected diamonds around a watch make time on hand a precious and thrilling thing.

A diamond gift is the symbol that shows someone cares and remembers . . . and diamonds are usually treasured forever by the lucky ladies who receive them for Christmas this year.

Classic Favorite For Creative Fun

Toys come, and toys go, but Tinkertoy seems to go on forever. In the round can, packed along with the colored sticks and spools is an instruction booklet that will be a "breather" for Mom . . . hours of fun for Junior to keep him absorbed.

Playing with toys is not just fun and games, however. It represents a very important learning process for the child because he learns by doing. Child psychologists have described the perfect toy as one that is suited to the child's level of development.

Tinkertoy is enjoyed by children of many ages. It's safe. In addition, it is as creative as the child himself, and because of its many building ideas, is always new to the moppet.

The original Tinkertoy had only minor changes until 1955 when color was added.

Banks To Mail $465,446 For Christmas Club

The volume of Christmas Club saving continues to climb in Delta County, with nearly one-half million dollars in savings to be mailed to Christmas Club members by the county's six banks.

Christmas Club checks this year will total $465,446 compared to $426,500 in 1963 and $417,630 in 1962, it is reported following a survey by the Escanaba Chamber of Commerce.

The checks will be mailed to the club members on Nov. 25 and will be received by them on Friday, Nov. 27—the day after Thanksgiving.

Banks making the distribution are the Bark River State Bank, the Gladstone State Savings Bank, the First National Bank of Gladstone, the State Bank of Escanaba, the First National Bank of Escanaba, and the Escanaba National Bank.

Christmas Club is a national corporation headed by Edward F. Dorset, president, who reports that a total of 14,750,000 club members will receive checks totaling $1,774,172,000.

This substantial increase in Christmas savings forecasts good Christmas business throughout the country," he said. A survey reveals that 45 per cent of the Christmas Club members said they would not have saved had they not been in a systematic savings plan.

The Christmas Club Corp. reports that about 38 per cent of the savings will go to Christmas purchases, 31 per cent for savings and investment for future use, 12½ per cetn for taxes, 6 per cent to pay year-end bills, and 12 per cent for miscellaneous.

Disbursements from Christmas Clubs have ben increasing annually, and have topped the billion-dolar mark each year for the past decade.

Classic Gift: Lovely Pearls

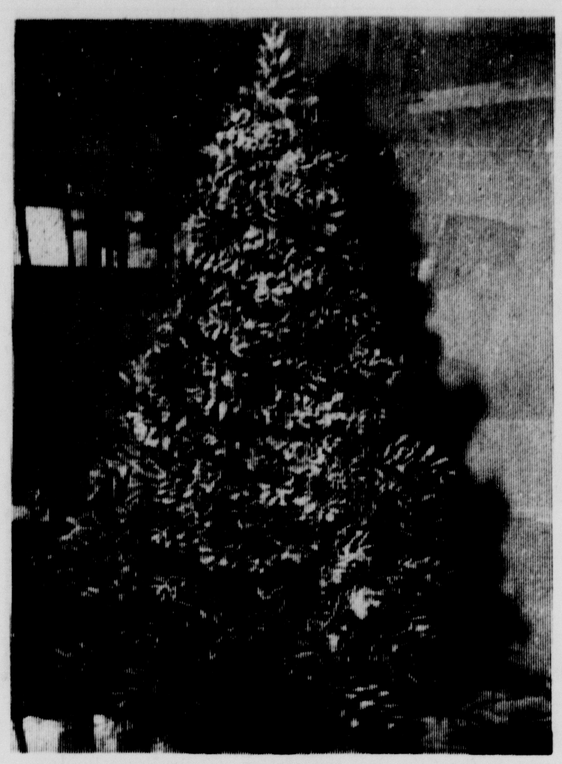
This Christmas give the "Queen of Gems." Give pearls

Never have pearls — necklaves, earrings, pins, rings and bracelets — been more important in the fashion picture than they are today, reports the Jewelry Industry Council.

This year's many new and striking designs offer a wide variety of selections. There are multiple strands of pearls, cultured or simulated, that are bound to delight the heart. There are pearl collars, effective with any neckline . . . multiple strands of tiny seed pearls . . . bracelets, earrings, always in good taste, always chic.

Combinations of pearls with other stones, such as jade, turquoise, lapis or topaz, add color and excitment to many of the season's newest designs. Cultured pearls in necklaces, as flattering as candlelight to every woman, are available in all lengths, though the trend is to the shorter lengths to frame the neckline.

In any price or style, pearls are sure to be welcomed as gifts to be worn with pride, cherished for years to come.



THIS PINE CONE TREE for a Christmas home decoration is the product of the expert hobbyist handcrafting of Mrs. Ralph Nordquist, Ford River Road. (Daily Press Photo)

Charm H- .ch Novel Jewelry

For the woman who appreciates personal gifts of sentimental value, select one of the endless assortments of novel jeyelry charms this Season.

There are charms in beautiful stone-set drops; and others in a precious assortment of miniatures . . . all are detachable and interchangeable. Some lend themselves to the revival in fashion's penchant for "antique" pendants.

A very special gift for the lady is a smart, gold disc charm. Have it personalized with an inscription of monogram.

CHRISTMAS WILL be a brighter day for children of the Escanaba area, thanks to the work of the Escanaba firemen. Pictured (from left) are John McGraw, John Kirkpatrick and Willard Mattson repairing toys that will go to children in less fortunate homes. More toys are needed and may be brought to the City Hall fire station. (Daily Press Photo)

Novel Wrapping Easy To Make

Novel Christmas wrappings are fun to make, and easy as well. All it takes to create a charming angel motif, for instance, is a few materials from the five-and-dime: dark blue or green wrapping paper, gold wrapping paper, pink construction paper, gold Christmas ribbon, sparkly tissue paper and glue.

First, wrap package in sparkly tissue paper, then tape blue or green wrapping paper to top part of box, covering one-third of package, to serve as background for angel's face. To make your "angel face," cut a three-inch circle from the construction paper; also cut tiny arms and legs about an inch and a half long. Paint eyes and a smile on face and glue to box. Cut hair from gold wrapping paper and glue in place.

Pleat a length of sparkly tissue paper to fashion dress and glue in place, with arms and legs. Tie gold ribbons to indicate wings and glue at sides.

A lovely cathedral effect can also be achieved on gift packages, simply by using "Q-Tips" and a few tiny Christmas bulbs. Place swabs on wrapped package, snipping swabs in half to make archway. To create design over archway, snip cotton tips from three swabs and glue tiny Christmas balls between each tip. Be sure to use dark wrapping paper as background, in order to create as much contrast as possible with white "Q-Tips" outline. The ultimate efect will be a striking, snow-etched cathedral!

Weight In Gold

A pocket scale proves an inexpensive gift for the man who likes to be exact. It weighs only an ounce and comes in its own carrying case. Postage weights cover both packages and letters. A chart comes with the scale and gives air mail, first and third class postage rates from one to four ounces.

She Never Has Enough Hosiery

That favorite "solve everything" gift for the female contingent — a festive gift box of stockings — takes on new dimensions of interest this Yule season. Never before has there been such an exhilarating variety in stocking styles.

For the glamour girl on the gift list. Santa's assistants will be sure of applause if they fill the Yule gift box with "Diamonds," a fair lady's best friend, and also a new pattern in seamless stockings of texturized nylon in a lacy diamond pattern.

For the sophisticated set choose "Diamonds" in smokey white, navy, black or topaz shades, suggests Grace Jones, vice president of Hanes.

For outdoor type country girls and gals "on the town," too, are some new textured nylon seamless stockings. Herringbone stockings, for example, are available in brown and white, gray and white, green and maroon and brown and olive combinations. Ribbed casuals in textured seamless stockings are new in smoky white.

Practical belles will welcome a big gift box of "Cantrece Sheerloc" stockings with a new run guard construction in the heel and toe. This new construction eliminates the source of 35 per cent of hosiery runs.

For the lady with an active social calendar, you can't give her too many sheer sandalfoot seamless stockings.

Encircle Her With Diamond

According to jewelers, Christmas is one of the most popular seasons for engagements, and the most thrilling gift a gal can deceive in her lifetime is a diamond engagement ring.

Christmas is such a festive, sentimental time of year that romance has a special glow.

In selecting an engagement ring, it should be remembered that this is an extra-special gift that must be chosen with care and with the aid of a good jeweler, who can give expert advice on the choice of the perfect diamond.

He can advise as to clarity, color, cut and caret weight of the diamond and help select a most flattering setting for it in any price bracelet.

The diamond solitaire continues as top choice for an engagement ring. It need not be a large stone to have brilliance and beauty. Most popular is the brilliant cut; other choices are the marquise, pear, emerald, square and oval cuts.

New and beautiful are engagement and wedding ring combinations, designed to fit together so that the duet gives the effect of one striking ring.

The combination of white gold and diamonds is always dramatic and popular especially in engagement and wedding rings.

Whatever the style, whatever the size, the gift that will outshine them all is the diamond eternally the symbol of romance and doubly so at Christ-

REAL FORESIGHT

MANILA (AP)—More than 70 weapons — ice picks, knives, slings and darts—were found hidden in the city jail.

Inmates said some of the weapons were hidden by prisoners who had been released but wanted to have arms on hand in case they were jailed again.

ORGAN-IZE A harmonious holiday with an electric console organ. Clean lines and contemporary styling of the musical instrument enhances decor of the living room.

Decorating the house in observance of Christmas was not common until about the 16th century. Then many Europeans put up fir trees in their homes, adorned them with roses cut from colored papers, with apples and sweets.

SEVEN BOATS were in the Escanaba harbor on Tuesday as the Chicago & North Western Railway worked feverishly to thaw frozen ore and keep the flow of ore moving to the steel furnaces. Pictured at dock are the Harvester and Samuel Mather, in the bay are the Leon Falk Jr., the Col. James Schoonmaker and the Henry Dalton, and not visible in the photo the Clarence B. Randall and the Henry Ford. (Daily Press Photo)

Put Yourself Into Decorations

Christmas entertaining today, as always, is traditionally festive and gay. Modern hostesses take delight in decorating the house and displaying their talents for do-it-yourself projects as at no other time of the year.

It's easy to go out and buy the things that make Christmas look like Christmas at your home. But somehow Christmas feels more like Christmas when there's something of you in the decorations that spell out the holiday spirit. With a litle time and imagination, you can make charming adornments for your home. And it's so simple with the help of Christmas gift wrapping papers, in themselves so in keeping with the spirit of the season.

Canada's EXPO 67 (1967 World Exposition at Montreal) will cover 934 acres.

DELIGHT ALL GALS over 10: fill a festive box full of lovely sheer seamless stockings or select a wardrobe of hosiery in fascinating herringbone, ribbed or diamond-textured patterns. A "Currier and Ives" type winter scene dresses up a gift-box of a dozen stockings while a romantic sleigh design rings the bell with gift-box of three pairs.

... SILK SQUARES

Silk pocket squares, generally worn with a tuxedo, are increasingly becoming popular for business and casual wear.

As might be expected, a variation of styles have appeared in order to satisfy the tastes of both traditionalists and more fashion conscious dressers. For the conservatives are the neat foulards, paisleys and subtle polka dots, while for the fashion-minded are abstracts and solid shades with interesting border designs.

Santa's Street To Glitter With Holiday Lights

The lighting of Escanaba's business district with green garlands and bright lights, supplemented with other decorations, will put a bright holiday glow on the area's Santa Claus street — a mile-long lane of shops stocked with an extensive assortment of gift items.

Cooperating in the lighting project as in past years, are the City of Escanaba and the Chamber of Commerce.

The city's electric department crews with their special equipment and skills erect the lighting decorations, using trucks and cranes were scheduled to be up and lighted right after Thanksgiving.

All of the materials were purchased or ordered early and the garlands were made up in advance by city workmen.

"There will be balsam boughs in streamers across the street, with colored lights intertwined," said William Van Effen, superintendent of the municipal electric utility.

This was the decorative arrangement that had received public praise in past years, and was restored in 1963 after the garlands had been eliminated for a couple years. The greenery and lights made a colorful canopy above the downtown business street both night and day, adding to the festive appearance.

The decorations will be located in the same areas as last year: On Ludington St. from 22nd St., west to Stephenson Ave. with greens and lights above the street; and other lighted ornaments from Stephenson to 23rd St.; plus additional lighting in the Stephenson Ave. Commercial area.

The downtown district will also have another attraction throughout the holiday season — a Santa Claus headquarters with a real live Santa the children can visit and make known their Christmas wishes.

In anticipation of the demands upon stocks during the pre-holiday shopping season, Escanaba merchants have asquired larger-than-usual inventories. Gift suggestions in the shops along the mile-long holiday street are of greater variety than ever before, according to the retail development committee of the Chamber of Commerce.

A PHOTO-PORTRAIT by a professional photographer will be sure to delight grandmother, or anyone, for that matter, on Christmas morning. It's a gift that grows more precious as time passes and youngsters grow up, teens marry, adults change.

Guitar High On Wish List

With the interest in rock 'n' roll and hootenannies this year it may come as no surprise that the guitar is the most popular musical instrument gift this season.

Manufacturers are reporting record sales again this year, and the holiday season is traditionally a high spot. The guitar is second only to the piano in total number of players.

There are many reasons for the guitar's success. Versatility is one. While enthusiasm for hootenannies has broadened its appeal, the guitar is equally adept as a solo or accompanying instrument for everything from flamenco and classical works to western music and rock 'n' roll. Thus, guitar players can enjoy virtually any popular style of music as it comes along.

The guitar is also portable. Its manageable size permits it to be carried across the range on a saddle or around town in the back seat of a car . . . even down a chimney!

Guitars have a wide price range, permitting people to experiment before making large investments. Many players who start with inexpensive models later trade up to higher-priced guitars. Simlarly, the instrument is geared to self-and group-instruction techniques, items of low-budget appeal.

The guitar is also an instrument suited for self-expression, from joy to sadness. And although guitars are played by millions, each individual instrument is as personal as the individual who plays it. Give a guitar this Christmas . . . and don't forget yourself!

Rudyard Kipling wrote his noblest poem, "The Recessional," in honor of Queen Victoria's diamond jubilee.

INEXPENSIVE answer to the Christmas gift quandary: The silk pocket square. High in fashion are geometric prints and borders, polka dots, stripes, neat foulards and paisleys. Suitable gift for any man old enough to wear a jacket.

More people get more news from newspapers than from all other sources combined.

THE MURDERED man, William Loomis, 39, of Indianapolis, owned and drove this white Jaguar when he left his home on Oct. 12 for Chicago. His body was found Nov. 21 on the Garden Peninsula in Delta County. The car abandoned days later in a garage in Memphis, Tenn. License placed traced the car to Loomis and aided in identifying him as the slain man. The photo was found on the body.

Greeting Cards Fun For Kids

Greeting cards for youngsters are more fun than ever, this year. Games and storybooks that burst into three-dimentional scenes . . . cards that can be made into tree ornaments or Christmas mobiles and other novelties are included in the 1964 collection.

New this year is a paper barn farm that comes folded flat in its envelope and opens into a 4-compartmented barnyard complete with 24 pound-out animals, a complete family as well as fencing, wells, and farm wagons designed to give a child many hours of amusement. Three-dimensional, this greeting card stands 1 inch high and is more than 15 inches across.

There is Christmas fun for a "sweet girl" in a card opening to a four-room cottage for paper dolls. Cut-outs include furniture and a family of four. For a boy who wants to be an astronaut, another four - area standup card contains all the orbiting devices of a 1970 space station.

Greetings that teach thrift, thoughtfulness or the significance of the first Christmas may also be found in the expanding collection of juvenile greetings.

There's a variety of "piggy bank" cards and coin-holding greetings. The coin cards, designed in the shape of Christmas ornaments of sleigh trimmings, hold ten shiny dimes. Youngsters are usually more delighted with silver than with paper currency.

Silver Casts Magic Spell At Christmas Time

Gleaming silver and festive occasions go together like love and marriage. Gifts of silver, the "queen of metals," always reflect good taste and enduring charm.

With the accent today on elegance in entertaining, nothing adds as much luster to the table as fine silver.

Holloware pieces bring a "special occasion" feeling to any meal, and the distinction of beautiful silver makes it one of the most exciting and wanted Christmas gifts for most women. What makes a holloware gift particularly attractive is the fact that many pieces serve a dual purpose.

For example, there are casserole dishes that set into new, footed dish holders that can be used as extra serving pieces when not used with a glass pyrex baking dish. Lovely ceramic or plastic-lined bowls are ideal for serving various items such as lemons, mayonnaise, relish, etc.

A wide range of other bowls, in sterling or silver plate — such as tiny bowls for nuts and condiments, medium-size silver bowls for food and flowers and large bowls for salads and fruits — all give a lovely look.

Trays are other sure-fire silver gift items that come in a wide range of sizes and prices. From tiny appetizer trays to big, beautiful tea trays, these silver accessories fill a glamorout role in any woman's homemaking plans.

Such table accessories as salt and pepper shakers, gravy and mayonnaise boats, candlesticks and candelabra, and even that Victorian glory, the silver goblet — are all exciting gifts.

Silver shines with a special glow in home accessories, such as ash trays, coasters, vases, match boxes and cigarette boxes . . . each a bright addition to the already-sparkling Christmas scene.

Richard Henry Lee and Francis Lightfoot Lee were brothers who signed the Declaration of Independence.

Unmentionables Are Memorable As Gifts

Here's a holiday gift riddle: what item of apparel do women like to receive, and men like to give, but neither ever mentions before Christmas?

Answer: lacy, lovely lingerie.

Although lingerie is a favorite gift under many a Christmas tree, most men find shopping for the intimate items something of an ordeal. Those who summon up the courage may end up with a fur trimmed robe or frothy negligee that is totally impractical for the woman who receives it. No wife would think of returning such a compliment to her femininity — even if she rarely wears it.

Don't just hint that you'd like lingerie. Speak up and be specific.

Be sure he has your sizes: it helps too, if he has the name of a favorite sales woman who is "in" on your secret desire.

Don't be too practical. Most men like to go a little bit wild at Christmas, so indulge yourself, too.

Learn what's new in both daywear and sleepwear fashions. Lace in IN for everything from slips to pajamas, gowns and brunch coats. Most of the new laces are machine-washable, all nylon, underlayed with nylon tricot to give body and added color.

Many of the new styles use contrasting colors, combining coffee lace, with a light bule underlay of filmy nylon, or coral lace over a pink underlay.

The misty look, created by combining sheer. and not-so-sheer nylon tricot is IN, and designed for wearing every day in the week.

Heading the fashion parade of new designs is a demi-set; it looks like the chemise of the Twenties. With its own bikini panties it can be worn for both day and sleepwear and is especially chic in black Crepeset® trimmed with pink.

For young romantics, fashion favors an enchanting Grecian one-shoulder gown. It's made of a textured nylon tricot crepe, comes in white, pink and blue and drapes and walls with unexcelled grace.

Also shown is a softly romantic, two-tone waltz length gown. It has an alluring Empire bodice, cut low, bat-wing sleeves (very big, throughout the fashion picture), and a pale blue skirt that falls in a graceful column of gathers.

The crepe look is definitely IN. Sleepwear speaks the language of femininity and shapes are soft and romantic, Choose gifts of lingerie for the ladies you love. No matter what her age if she's over sixteen she'll thrill to your selection.

AN INVESTMENT in home entertainment will pay dividends in pleasure for years to come. This stereo sound center incorporates a tape deck with automatic threading reels, simple pushbutton controls and a pair of ceramic microphones. Recording units help make home entertainment a participation sport, and keep the family at home and enjoying it.

Entertainment Gifts In All Sorts Of Shapes

Manufacturers of home entertainment units of all kinds have outdone themselves for Christmas 1964.

The widest variety of miniature transistor radios are available in every possible price range.

AM/FM transistor radios are being shown in new small sizes and a greater number of them are available at prices lower than those shown last year.

Personal-size portable TV sets ranging from tiny lightweights to 11" screen size are abundantly available in prices for every budget. Some are battery-operated for travel anywhere while most are the more conventional plug-in types.

As for table radios — the styles, colors and sizes they come in, absolutely defy description. There are radios with all sorts of clock and timer arrangements; some are AM only and many tune in on both AM/FM stations as well as on short-wave bands.

Of course, certain devotees will want to create their own home entertainment centers and can go as elaborate or as simple as they like from the widest possible selection of individual components ever made available.

Simplified operating innovations and design, combined with high performance and reliability, are featured in two broad new lines of Ampex stereo tape recorders for the home.

Two new lines are offered by Ampex: the 2000 features unique, automatic threading which minimizes tape handling and an automatic reversing mechanism which permits both sides of a four-track stereo tape to be played back without rewinding the tape and turning it over, as is customary with most recorders. The lower-priced Ampex 1000 has the same basic design and construction as the 200, but excludes the automatic features.

The listener may enjoy four hours of continuous background music, and two hours of continuous high fidelity music. For voice recordings of various family activities the slowest speed provides excellent quality and minimizes tape costs. So you can see how simplified and trouble-free it now is to store and enjoy the "Sounds" of happiness with a truly automatic tape recorder that the entire family can use for entertainment instruction and study.

Men's Belts Are Cinch To Like

An added point to note: buckles are smaller and with a few tricks. The fact, is, most beltmakers now rely on the standard leather tab for fabric belts in wide widths. And on the way up — take note — are reversible belts for the contemporary or traditional minded man.

Leather looms large in men's gifts this Christmas. There are luxury leathers . . . textured leathers . . . newly - colored leathers . . . gleaming classic leathers. In short leather is making it in every way, including friend Alligator.

Included, too, wil be suedes, chamois, buffed calfs, shrunken grains; plus the exotic types, buffalo, kangaroo, ostrich, cordovan. Even a new finish shows up for stand-by harness leathers.

Three races of royal lines have ruled over the French: Carolingian, Merovingian and Capetian.

Holiday Booty Gets The Girl

She'll be walking on air after the holidays, if you add a gift of pretty leather boots.

Boots in an endless variety of leather textures — smooth, grained, suede, waxy, brushed, and patent — are making bigger fashion headlines than ever this season.

No longer are they something to put on your feet only in bad weather or when you're hiking or horseback-riding. Today's leather boots are fashionable and feminine-looking at home, in the office and even night-clubbing, as well as out of doors.

Brightly colored, water-resistant, all-leather boots will keep her feet dashingly dry through slushy streets and winter winds from Christmas morning on. Medium-weight leather soles flex easily to accommodate foot movement, while leather uppers simultaneously protect the foot and leg against wind and water and allow perspiration to escape. Boot heights vary from ankle-huggers to knee-skimmers. . . high for coats and suits, low for pants. They splash the winter scene with color: scarlet, mustard, loden, honey, deep blue. For contrast, some boots feature different tones on the shoe upper and on the leather lining. Turning down the cuff gives a multi-hued effect. In boots boasting warm shearling linings, the wool is often dyed to match the color of the shoe.

A pair of these handsome leather boots or boot-shoes will give her comfort, warmth and up-to-the-minute styling.

Job Changes In State Subject Of Study Program

Michigan State University Extension Service told representatives of service groups and industry at a Delta County Building meeting Tuesday afternoon of its program to make Michigan more aware of the need for development of human resources.

The changing world has convinced the University that Michigan's people should be fully conscious of the likelihood of job change in a fast moving economic revolution.

The schools are concerned with the problem, but so, thinks MSU, should the general public. It plans another meeting here soon to train persons who will carry to local groups the message which the Tuesday meeting heard from Larry Bradford and Miss Ingrid Tervonen of the Extension staff.

Some of their statements:

"Most people entering the labor force today will change occupations two or three times in their lifetime.

"By 1970 we will need no more unskilled workers than we did in 1960.

"Four years of additional schooling will add as much to income as 20 years of job experience.

"Michigan ranks only 27th among the states in the percentage of high school graduates entering college.

"Unemployment rates for school dropouts are more than double those who finish high school.

"High school enrollment by 1970 will more than double 1950's."

Michigan will have 1,400,000 youths reaching 18 in 1960-70. The state's population will continue to grow faster than the nation's and reach 9.2 million by 1970.

Population growth will be especially rapid among youth reaching working age. In 1960 Michigan had 106,000 reaching 18 and in 1970 the number will be 165,000.

Michigan's labor force will reach 3.4 million by 1970, which is 15 per cent over 1963. There'll be sizeable increases in the young (under 25) and older (45-64) age groups.

Every third person in the state labor force will be a woman in 1970.

Older persons (45 and older) will be a bigger part of the population and the labor force.

Employment in service industries will grow much faster than in production industries. Spectacular employment growth is looked for in service, trade and construction industries

In the 1960s employment opportunities in Michigan will be greater than ever before, but some employment groups will shrink. Professional and technical workers will increase more than 50 per cent and unskilled workers will decline more than 30 per cent. Farmers and farm workers will also decline 25 per cent and semi-skilled workers will decline.

It is to alert Michigan to these changes that MSU Extension is launching its "Developing Human Resources" study discussion program. Inquiries about presentation may be addressed to Joseph L. Heirman, MSU Extension Director, Escanaba.

One Quintuplet Dies In Paris; 4 Others Frail

PARIS (AP) — One of the Sambor quintuplets died during the night, the Ministry of Public Health announced today.

Officials said the dead baby was the last born, Jean-Luc, who weighed 2 pounds 7 ounces at birth Monday.

The ministry said there had been "no important change" in the condition of the other two boys and two girls.

The babies were born to Mrs. Raymond Sambor, wife of a mailman in a Paris suburb.

The Health Ministry said Jean-Luc had been suffering from respiratory troubles which suddenly worsened Tuesday night. Three hours later a hemorrhage of the lungs developed and he died. News of the death was withheld until this morning.

Briefly Told

A Community Council meeting will be held at noon Friday at the Sherman Hotel.

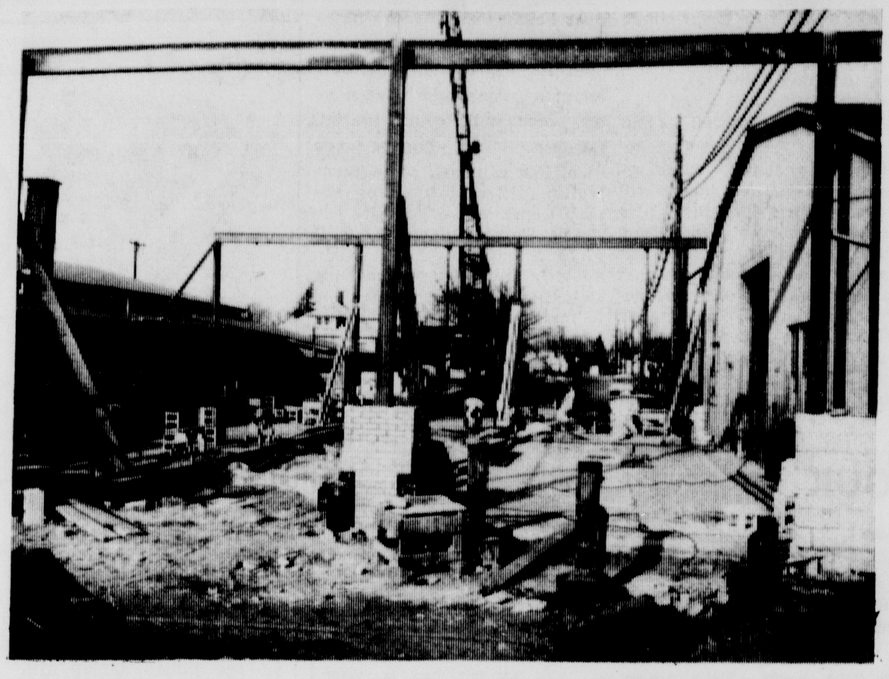
Applications for marriage licenses were made at the County Clerk's office today by Wilfred Joseph Couillard, Rte. 1, Bark River, and Violet Jean King, 320 S. 7th St., Escanaba, and by Jon Raymond Taylor, 911 Washington Ave., Escanaba, and Rita Mae Vanderlinden, Rte. 1, Galdstone.

Gogebic Leads In Coyote Trapping

The October take of predatory animals in the Upper Peninsula ran Gogebic County far out in front in the coyote catch with 87, Mackinac county tops in bobcats with 7 and Iron County tops in foxes with 43.

The take in coyotes, bobcats and foxes, in that order included: Delta: 30-5-30; Schoolcraft, 25-2-9; Menominee, 36-5-33 and Alger 11-0-6.

The catch was larger in coyotes than a year ago and lesser in bobcats and foxes.



CONSTRUCTION OF an addition to the Clairmont Transfer Co. building at 1803 7th Ave. N. is now under way. The City of Escanaba has vacated portions of streets to assist in the expansion which will facilitate the operations of one of the community's major employers. (Daily Press Photo)

American Motors Officer To Talk To Fund Workers

George E. Gullen, Jr., vice president-industrial relations, American Motors Corp., will speak at the Michigan United Fund's Upper Peninsula campaign achievement celebration at noon Thursday, Dec. 3, in Northern Michigan University.

Representatives and key volunteer workers of the United Funds and Community Chests from all counties of the Upper Peninsula have been invited to attend as guests of a group of U. P. utility companies. During the campaigns now drawing to a close, these volunteer workers will have raised more than $300,000 for United Fund recipient agencies.

Gullen has been associated with American Motors since 1955. He has been active with the YMCA in Detroit, is currently a member of the national board and national council of YMCAs. He is a vice president and member of the executive committee of the Michigan United Fund.

John L. Farley, chairman, Upper Peninsula Area Committee of the Michigan United Fund says, "we are most fortunate to get such an outstanding spokesman for the United Fund movement as Mr. Gullen. He has devoted much of his time in promoting the concept of united giving. We are certain he will have a stimulating message."

Newspaper want ads are a big sell! Eight hundred million was spent on classified ads last year . . more than for all television spot announcements or radio advertising.

Bogus Doctor Goes To Prison

DETROIT (AP)—A man who hopes to "spend the rest of my life as a physician" has been sentenced to prison for practicing medicine without a license.

Thomas M. Novak, 29-year-old high school graduate, was sentenced Tuesday to a year in prison for dispensing dangerous drugs without a license and six-months for practicing medicine without a license. The sentences are to run concurrently.

Novak, who was believed to have made more than $120,000 during the four years he posed as a doctor, had pleaded guilty to both charges. He was found not to be a doctor during a routine investigation of his application for an insurance policy offered only to physicians.

Novak, in a plea for leniency before Recorder's (Criminal) Court Judge Paul E. Krause, said:

"I am aware that I practiced illegally. But I conducted myself as a physician and followed a regime of healing. Thank God, no one suffered, and I hope to spend the rest of my life as a physician."

Novak and his wife, Patricia, 26, are the parents of three children, Christine, 7, Catherine, 5, and Thomas M. Novak II, one month.

Isabella

Mr. and Mrs. Leonard Nedeau and two children and Mr. and Mrs. Edward Nedeau and three children of Kalamazoo are visiting at the home of Mr. and Mrs. Leo Nedeau.

Isle Royale To Get Historical Study On Grant

HOUGHTON — A research and scholarly writing project on the post-Columbian history of Isle Royale will be undertaken by a Michigan Tech faculty member through a $2,000 grant from the National Park Service.

Dr. Lawrence Rakestraw, professor of history and political science at the Houghton school, expects to complete the study by next February.

The first of a two-part historical project, the study involves a thorough search of local, state and federal records and documents, holograph (handwritten) manuscripts and historical iconography, and a ground survey of the post-Columbian habitation sites on Isle Royale.

Dr. Rakestraw spent most of last summer on Isle Royale, covering much of the area by plane, canoe, power boat and on foot while searching for, and mapping, old mining and fishing sites.

During part of the summer he cooperated with underwater archeologists from the Oshkosh Museum and recreational foresters from the University of Michigan. At that time he discovered much material of interest to archeologists and historians in the Rock Harbor, McCargo Cove and Siskowit Bay areas.

Last year Dr. Rakestraw completed a historical base map of Isle Royale for the National Park Service under a similar grant.

Jack Ruby Plays Dominoes In Cell At Dallas Jail

DALLLAS, Tex. (AP) — Jack Ruby spent a routine day in his cell in Dallas County jail Tuesday, the first anniversary of his shooting of Lee Harvey Oswald.

"He followed the same routine he follows on other days," said Sheriff Bill Decker.

He said Ruby spends much of his time playing dominoes and cards with guards assigned to his cell, which is apart from others.

Ruby is under the death penalty for the slaying of Oswald, the assassin of President John F. Kennedy.

Rev. Fisher Is Ordained

The Rev. Frater Don Bosco Fisher, O. F. M., CAP., son of Mrs. Dorothy Fisher, and the late Robert J. Fisher, and grandson of Mrs. Josephine Fisher of 507 S. 11th St., Escanaba, will be among 14 Capuchin Friars who will be ordained to the Catholic priesthood Thanksgiving Day at St. Mary's Church, Marathon, Wis. The Most Rev. Roman R. Atkielski, Auxiliary Bishop of Milwaukee, will be ordaining prelate.

The young priest will offer his First Solemn Mass Sunday, Nov. 29, at 11 a.m. in St. John's Church, Marquette.

At the Solemn Mass, Father William C. Oremus, pastor of St. John's, will be the assistant priest. Father Robert Harrison, O. F. M. CAP., will be the deacon. The subdeacon will be Father Noel Hedrick, O. F. M. CAP., a classmate of the newly-ordained. Brother Agathangelus Ashe, O. F. M. CAP., will be master of ceremonies. Father Hilary Zach, O. F. M. CAP., novice-master of the Capuchin Novitiate in Huntington, Ind., will preach the sermon.

Father Fisher was born in Marquette, May 1, 1938. He received his grade school education at St. John's and St. Peter's parochial schools. His high school education was taken at the Salvatorian Seminary, St. Nazianz, Wis., and St. Lawrence Seminary, Mt. Calvary, Wis. Following graduation in 1956, he entered the Capuchin Franciscan Order for a year's Novitiate, part of which was spent in Detroit, and part at The Sacred Heart Friary near Baraga.

In 1961 Frater Fisher received his bachelor of arts degree at the Capuchin Seminary, Crown Point, Ind. For the past three years he has been studying at the Capuchin House of Theology, Marathon.

After a brief stay at home, Father Fisher will return to St. Anthony Friary, Marathon, until next June, when he will complete his theological training. This will be followed by a year of pastoral theological training at St. Francis Friary, Milwaukee. His future work will then be decided by his immediate superior.

Cornell

Birthday Party

Many relatives and friends helped Mrs. Andrew Johnson celebrate her 75th birthday anniversary at her home Monday afternoon. Games were played with a prize awarded to Mrs. Wallace Campbell. Guest award went to Mrs. Alfred Anderson. A buffet lunch was served. Mrs. Johnson was presented with a white birthday cake with pink rose trim and many other gifts. Party arrangements were made by Mrs. Don Kickbusch and Mrs. Carl Frans.

Observes Birthday

A birthday party for Mrs. Carl Frans was held at her home recently. Mrs. Alfred Dahl Jr. received the prize in games which preceded a buffet lunch. Other guests were Mesdames Monroe Harrison, Axel Carlson, Hjalmar Olson, Alfred and John Anderson, Wilfred Mattson, Henry and Warren Rose, Alfred Dahl S., Robert Dahl, Mary Harrison and Mary Backlund.

Cornell M. Y. F.

Cornell M. Y. F. will meet at the church Saturday, Nov. 28, at 7:30 p. m. Dr. Gordon will speak on smoking and alcoholism. Parents are invited to attend.

Man Disturbing Nature Balance

Modern biology is a working science, it is dynamic and useful, and there is a tremendous need for its application in maintaining man's healthy relationship to the forces of nature, Raymond Reilly, faculty member of Bay de Noc Community College, told the Rotary Club Tuesday noon.

Reilly attended Northern Michigan University, received his degree from Michigan State University, attended Cornell University in doctoral work, and has been employed by private and public agencies in scientific projects. He was introduced by Richard Rinehart, Bay de Noc Community College president, and chairman of the Rotary Club's program committee.

Man's imperfect knowledge is leading to imbalances in nature that threaten to leave barren the land upon which his life depends, Reilly suggested.

Programs of chemical warfare in control of insects and for the purpose of saving the elms trees or the pines and to exterminate pests is upsetting nature's balance and creating harmful side effects.

"For example, DDT and all of its by-products are toxic," he said. "No one is dying from DDT. At least we don't think so. Other life is being killed, however. How often are we rushing into wholesale use of controls without adequate knowledge of the biology involved?"

Man's natural environment is being substantially altered by man and the result can be disastrous by putting nature out of balance, not only for man but also for the many creatures about which he expresses concern.

Hunting and predation, for example, are but two of many factors affecting the abundance or lack of game, he pointed out.

Greater knowledge is required by man in a highly complex field of biology if he is to successfully cope with problems of pollution and industrial economy, Reilly pointed out. Industrial payrolls are essential — yet industrial pollution may destroy the very environment by which the industrial resources are produced by nature.

Four members were inducted into Rotary membership: Robert Krohmer, the Rev. Ben Helmer, Melvin Putnam and Percy Rosemurgy. The induction was by Dr. Vernon K. Johnson, Robert Mosenfelder and Edward E. Edick, and the meeting was conducted by President Robert Haack.

Garbage Pick-Up On Same Schedule

City employes of the public works department responsible for the collection of garbage will work on Thursday, Thanksgiving Day, to assure the regular schedule of garbage pick-up, it is reported by Ken Toushak, public works superintendent.

The City Hall will be closed Thursday for the holiday weekend and will reopen again on Monday morning. Most employes of public agencies will have the remainder of the week for vacation.

Dinner guests of Mr. and Mrs. Dale Watchorn were Mr. and Mrs. Herbert Pizzala, Mr. and Mrs. Virgil Pizzala and Mr. and Mrs. Tom Civil of Flint, Mr. and Mrs. Eugene Swanson and John Watchorn, Fayette. Another guest of the Watchorns was Mrs. Jean Lelaw of Detroit.

Mrs. Gilbert Johnson, Biloxi, Miss., Mrs. Donald Thomas, Chicago, Emanuel Moberg, Chicago, John, Pat and Albert Moberg, Detroit, and Gene Moberg, Englewood, Calif., were called home by the death of their mother, Mrs. Hazel Moberg.

Gust Soderberg had major surgery at the Mayo Clinic at Rochester, Minn. Mrs. Soderberg is there with him.

Mrs. Harvey Sundin and granddaughter, Brenette Peterson, left today for Hanover Park, Ill. Mrs. Sundin will visit her son, Burton Peterson, at Elgin Hospital.

Mrs. Norman Morrison and Norma and Ikie of Belleville are spending the holidays at the Isadore Bonifas home.

Garden Peninsula

Mr. and Mrs. Robert LaLonde of Inkster are the parents of a daughter born November 24. The baby has been named Victoria Lorraine and weighed 6 lbs., 8 oz. Mrs. LaLonde is the former Mary Lynn Ward.

William Ward, Wayne Seamon and Neil Gauthier arrived Monday from St. Joseph, Mich., to spend Thanksgiving with their families.

Reward Offered

The state has offered rewards of $50 each for information leading to direct capture of Romiro Valdez, 28, of Saginaw and James Martin, 27, of Detroit who escaped from Camp Cusino near Shingleton. Valdez had been sentenced for receiving stolen property and Martin for breaking and entering.

Hospital

Admitted to Schoolcraft Memorial Hospital were Shirley Demars, Cooks; Dorothy Thompson, 106 Arbutus; Joyce Carson, 330 N. Houghton; Patricia Jenerou, Rte. 1; Roy LaMarche, 112 Arbutus; Timothy Tufnell, Rte. 1. Discharged were Harriet Popour, Ivan Dawson, Joseph Cassidy and Shirley Neff and baby.

New Police Car Is Purchased

The Mainistique City Council Monday night accepted a bid for a new police car, heard reports on changes made for the water tank project, confirmed appointment of a city clerk, and continued condemnation proceedings on a house of Mrs. Sarah Williams Sangraw.

The changes approved by the federal government were for a 10-foot steel ladder in the center ball, and a change in the amounts of dirt and rock involved in excavation. A net decrease of $940 resulted from this, the city manager said.

He reported the total rock trenching costs will be about $6,000 higher than anticipated, he said. The total project is 85 per cent complete. An application of the city for fencing around the base has been approved subject to the city's furnishing half the $1600.

Volunteers Offering

On another city project, the Manistique Housing commission has moved to retain its application for a 50-unit senior housing facility, and not change to provide 30 for elderly and 20 for non-elderly, the manager reported.

In the condemnation of property discussion, Councilman Leo DeMars reported a considerable number of people are interested in aiding a volunteer effort to provide a house for the 70-year old woman, offering both time and money. A number will be willing to work to build a house, he said. It appears a rental property will be available for Mrs. Sangraw, the manager said.

The formal appointment of Ralph Ekstrom as city clerk was made and starting salary, following his appointment as treasurer by the manager, was set at $5200 per annum, effective Nov. 23. His bond of $10,000 has been approved. The Council has asked a check of cost of providing higher bond for this office.

The bid of Curran Chevrolet for the new police car was acctepted, in accordance with bid specifications, at net cost of $1,100.

Plan To Plant Tree

A request of two Japanese brothers for a letter of invitation to the city was presented by the mayor who said the two plan a visit to the United States for two years beginning in March, 1965. Both are university graduates and will be touring by car over 67,000 miles, visiting 1,000 cities, including county seats and state and national capital cities.

The manager reported the city has adhered to budget in nearly all departments, but that cost of remodeling the Fifth street garage for a public safety department was higher. The "worst" of the fiscal year in terms of expense is still ahead, but barring extreme weather the city should do pretty well financially, he said.

The manager reported Christmas decorations had been erected and that a meeting had been held with the Chamber of Commerce to discuss planning so that costs are held to $800. A community tree was obtained from Inland Lime and Stone Co. property, he said.

Mayor Merwin White suggested it would be well to consider plans to plant a community Yule tree, perhaps at Triangle Square.

Give Those Tired Eyes A Break!

The time has come when you have to look the job of Christmas cards and notes right in the eye.

The list of names may seem endless and this job added to other seasoned chores c-a-n cause eye strain.

Here are some tips to help make close - work addressing cards literally easier on the eyes.

Close-up work, such as reading and writing, is usually done at a distance of about 14 inches from the eyes. Muscles become tense and eye irritation often results from working at such close range.

Give your eyes a "rest break" occasionally. Lift your eyes from your work and focus on a distant object, preferably at least 20 feet away.

Stopping your work for a cup of coffee or a cool drink also gives the eyes needed relief.

This visual change is nature's own prescription for resting tired eye muscles and avoiding fatigue.

Proper lighting is important; daylight should come from a nearby window, over the left shoulder. After dark, you need the light of at least a 100-watt bulb placed 15 inches above the work, this should be supplemented with indirect or diffused light in the background.

The use of eye-drops, such as Murine, during your break will help sooth and refresh tired eyes.

Plan proper lighting and proper eye-care and you'll breeze through the pleasant though taxing job of writing your Christmas cards and notes.

GLADSTONE

THE JAMES T. JONES school cafeteria was alive with Pilgrims and Indians Tuesday afternoon when the first grade students from Mrs. Beauchamp's and Mrs. Smith's rooms ate their Thanksgiving corn bread and milk attired in Indian headdresses and Pilgrim bonnets. The children all made their own headgear and assisted with the corn bread. Heap Big Chief Cameron surprised the group with a visit and sat down to eat with them. Mrs. Beauchamp and Mrs. Smith were assisted by Mary Douglas of Escanaba and Verna Maki of Chatham, student teachers from Northern Michigan University. (Daily Press Photo)

Development Co. Asks Fund Aid

The Gladstone Industrial Corp. has mailed letters containing its by-laws and a selection sheet to all persons who contributed to the drive for funds to assist the Burchwood-Casey venture early in 1964.

At that time $24,000 was raised to assist in the purchase of the Marble Arms Corp. in order to keep the industry active in Gladstone.

Since this venture did not materialize, officers of the I. D. C. are asking each donor to invest $10 of his donation to purchase a membership in the corporation and to signify his choice of use for the rest.

Michael LaPine, president, said "It is the hope of the corporation that each donor will elect to invest the remainder of their contribution in the fund to be used to further the search for new Gladstone industry and to assist existing industry, whenever necessary."

The $24,000 has remained in the Gladstone banks and it will be necessary to have these choice slips returned to the banks by Dec. 7.

Officers and directors of the Gladstone Industrial Corp. are LaPine, Frank Fleck, Frank Stupak, James T. Jones, Walter Olson, William Noreus, Wynand Nieuwenkamp, Reuben Sjoquist and Charles Burton.

Thanksgiving Service Tonight

Thanksgiving services will be held at 8 o'clock tonight at Memorial Methodist Church.

The combined choirs of Memorial Methodist and First Lutheran churches will sing. Rev. Reuben Carlson will deliver the message on the topic, "This Difficult Thing."

Bazaar Dec. 4

The Woman's Department of the Reorganized Church of Jesus Christ of Latter Day Saints will sponsor a Christmas bazaar and bake sale at the church annex Friday, Dec. 4, from 1:30 to 9 p.m. Refreshments will be served. The public is invited.

Bring Mittens

The Jolly Jills Home Extension Club will meet at the home of Mrs. Albert Rousseau, 311 S. 8 St., at 8 p.m. Monday. Each member is asked to bring mittens for the Child's Welfare Club mitten tree.

The Marquette Iron Rangers Hockey team made a happy debut in the United States Cestral League over the weekend, splitting in two road games in Minnesota . . . Oakie Brumm's sextet bowed to Rochester, 6-2, before spilling St. Paul, 4-3 . . . The Rangers will make their first home start at the Palestra on Dec. 10 against the Green Bay Bobcats.

★ ★ ★

A field goal by Martin Logan with four seconds remaining in the game gave Suomi College of Hancock a 71-69 victory over Gogebic College of Ironwood . . . Martin Robertson, freshman from White Pine, paced Gogebic with 20 points . . . Logan had 21 for the wisners.

★ ★ ★

Sam St. Germain, son of former St. Joe and Holy Name coach Tom St. Germain, made the honorable mention list on the Northern Michigan Class C all-conference selections as a linebacker . . . He plays for the Pellston team coached by his father . . . Another former Escanaba boy made the honorable mention list as a lineman . . . He's John Berquist, son of the Evans Berquists who now reside in Gaylord.

★ ★ ★

Munising's George Wolfe, senior fullback, was the fifth leading ground gainer in the Central Michigan University backfield this fall . . . Wolfe gained 54 yards in 16 carries, caught three passes for 24 yards, punted six times for a 35.3 yard average and returned two kicks for 34 yards.

★ ★ ★

Tom Stumpf, former outstanding Menominee High School athlete who attended Michigan State last year, is a member of the University of Wisconsin-Marinette Extension basketball team this season . . . Dave Everson, another former Maroon athlete, is also a member of the team that will play a 16-game schedule.

★ ★ ★

Leonard (Oakie) Brumm, player-couch of the Marquette Iron Rangers hockey team, has carried on a long rivalry with the Green Bay Bobcats . . . It began back in 1958 when Brumm was guiding the Marquette Sentinels in the defunct Mid-American League . . . Brumm's charges edged Green Bay by three points for the league championship.

Redmen Trip Eskymos In Great Lakes Game

MARQUETTE — Coach Harold Johnson's Escanaba Eskymo cagers lost an uphill battle here Tuesday night, bowing to Marquette 62-56 in Great Lakes Conference action.

The Redmen victory was triggered by a great offensive performance by Paul Albright, 6 foot 3 inch senior veteran who spread the nets with 14 field goals and 8 free throws for 36 points.

The Eskymos clicked for an early lead in their second start of the campaign and had a 9-6 edge midway in the opening period. But Albright began to find the range in the late stages of the quarter and pulled Marquette ahead by a 19-14 margin.

Escanaba narrowed that deficit to one point late in the second period, 27-26, but Albright tallied two field goals and a free throw to make it 32-28 at the half. Inability to hit from the free throw line hurt the Eskymos in the first two periods. They were able to convert only two of seven gift shots while Marquette canned 8 of 11.

Escanaba fell behind by 10 points, 38-28, early in the third period but again fought back to narrow the margin to three points before the Redmen spurted for a 50-42 cushion entering the final period.

As in their season opener against Holy Name, the Eskymos pulled to within four points, 58-54, with two minutes remaining in the game. But they were forced to foul in an effort to get possession and the Redmen outscored them 4-2 in the stretch, all of the Marquette points coming from the free throw line.

Escanaba's balanced scoring attack had Dick Sivertsen with 14 points, Carl Olson 11 and five other players on the scoreboard.

Paul Christensen was Escanaba's rebounder and Sivertsen turned in an outstanding floor game. In addition to their lack of accuracy from the foul line, the Esky chances were dimmed by an inability to tally on their layups and tips.

Marquette won the jayvee preliminary, 63-55.

Box score:

Fregetto Is Named To All-State Team

By BERNIE KENNEDY
Associated Press Sports Writer

Halfback Dick Berlinski of Kingsford, the Upper Peninsula's top back for the second straight year, is the only repeater on the Michigan Class B All State football team announced today by the Associated Press.

Berlinski is one of four top performers in the all star backfield which includes Larry Charney of St. Clair, Rod Mizer of St. Louis and Ron Wilson of Albion's Class B champions.

Terry Thomas of Port Huron Catholic is the heaviest man in the line, weighing in at 215 pounds. He is paired at tackle with Eugene Fregetto of Escanaba Holy Name.

John Sklepkowski of Oscoda and Greg Bringard of Detroit St.

Other linemen named to the first team are ends Jim Seymour of Royal Oak Shrine and Duane McIvor of Lowell, guards Ambrose and center Greg Satanski of Jackson St. John.

HONORABLE MENTION

Two Upper Peninsula players were named to the Michigan Class B honorable mention list. Honored were Frank Trotter, Holy Name quarterback, and Dwight Romagnoli, Kingsford tackle.

Those named to the second team backfield by the panel of sports writers throughout the state are Randy Johnson of Grand Rapids Northview, Frank Waters of Hillsdale, Fred Wicht of Wyoming Park and Dave Shoemake of Buchanan.

Second team linemen selected are ends Chuck Brown of Hudson and Dan Wrozek of Jackson St. Mary, tackles Terry Merx of Tecumseh and im Pritchett of Allegan, guards Pail Oakes of Muskegon Reeths-Puffer and Tom McKinley of Kalamazoo Hackett and center Tim Quinn of Romeo.

Berlinski shattered the U.P. season scoring record with 194 points, gaining 1,510 yards in 141 attempts en route to scoring 28 touchdowns and 26 extra points.

He has averaged 8.4 yards a carry in four years at Kingsford. His career record is 3,593 yards gained in 429 attempts. He finished with 417 points.

Charney, a quarterback, completed 77 of 164 passes for 1,188 yards and 12 touchdowns, twice and threw for two extra points.

Mizer scored 132 points, best record of any player in the central part of the state. He averaged 10.3 yards a carry, gaining 1,345 yards rushing and adding 323 more through the air. He completed 14 of 20 passes, two of them for touchdowns of 80 and 69 yards.

Wilson, a strong two-way player, scored 75 points and averaged seven yards a carry. He was an outstanding punt return specialist, running one back 90 yards for a touchdown, and also scored twice on pass interceptions.

The ends on this all senior team are considered two of the top college prospects in the state at the position.

Seymour caught 31 passes for 560 yards and 10 touchdowns. He also carried the ball 31 times for 167 yards and had a punting average of 44.7 yards.

McIver scored 85 points, catching 35 passes for 716 yards and 13 touchdowns. Defensively, he blocked five punts, three of which were converted into Lowell touchdowns.

Fregetto, an outstanding blocker and tackler, was named the top lineman in the Upper Peninsula this year.

Thomas scored two safeties and intercepted two passes in spearheading Port Huron Catholic's defense.

Bringard, co-captain of St. Ambrose's Detroit city championship team, averaged 11 unassisted tackles a game, recovered six fumbles and blocked two punts.

Satanski played both ways through the year and was regarded the best lineman on a line that yielded only 53 yards per game rushing.

Rockets Edged By Two Points

RAPID RIVER—Coach Bill McGovern's Rapid River Rockets dropped their second straight 2-point verdict of the young season Tuesday night, bowing to Negaunee St. Paul 55-53.

The Rockets wiped out an 11 point deficit in the second quarter to lead 39-37 entering the final period.

Dominic Jacobetti, one of the Peninsula's top point producers last season, won the game single-handed down the stretch. He scored St. Paul's final seven points and drilled the winning field goal from behind a screen with 7 seconds remaniing on the clock.

Jacobetti finished with 37 points for the night while Doug Moss paced Rapid River with 22.

Rapid River outscored St. Paul by one field goal but could add only 5 of 16 attempts from the free throw line. The Emeralds converted 9 of 15.

Rapid River won the jayvee game, 42-40.

The 1500 meters, the so-called metric mile, is 119 yards, one foot, nine inches short of a mile.

Carney Rally Catches Felch

CARNEY — The Carney Wolves came from behind with 20 points in the last quarter to nip Felch 60-57 in a Little Seven Conference contest here Tuesday night.

Outshot by one field goal, 23 to 22, the Wolves made up for it from the foul line where they clicked on 16 of 29 chances. Felch made good on 11 of 22 atempts from the free throw line.

Cliff Perras of Carney paced both teams on the scoreboard with 28 points, including a dozen from the charity line. Blomquist of Felch registered 26.

The triumph was Carney's second straight this season.

Stephenson Tips Gladstone Quint

STEPHENSON — The Stephenson Eagles made a successful start in the 1964-65 Great Lakes Conference race with a 47-40 triumph over Gladstone here Tuesday.

Coaeh Guss Lord's Eagles entered the fourth quarter with a two point advantage and won going away, outscoring the Braves 16-11 down the stretch.

A pair of fast break layups by Bob Mellinger started the Eagles on their way in the final quarter. Dave Bush contributed two field goals as did Jerry Lutri while Jerry Hittman tossed on two gift shots and a field goal.

It was tight all the way with Stephenson holding a slim edge at the end of the first quarter, 9-7, and at the half, 20-16. It was 31-29 entering the final period.

The Eagles shot at a 40 per cent clip from the field, hitting on 20 of 50 attempts and added 7 of 12 from the foul line. Gladstone was able to hit on only 16 of 54 field goals, missing many close-in shots, for 29 per cent. The Braves added 8 of 13 free throw opportunities.

Bush took scoring honors for the night with 17 points while Rick Ebbesen led the Braves with 16.

Gladstone won the jayvee game, 33-32.

Redskins Blast Pembine Cagers

HERMANSVILLE—The Hermansville Redskins shot out of the starting gate like a souped up racer here last night, running roughshod over Pembine by a 106-57 margin.

Coach Don Hill had all nine of his players in action before the first half ended and reserves played out the final period.

Deadeye Ron Povolo, playing less than three quarters, led the Redskins with 25 points while Dan Vincent tallied 14, Harry Gordon 22 and freshman Randy Fochesato 10. The five other players on the squad all contributed to the point total.

The Redskins hit on 42 of 91 shots from the field and added 22 of 33 from the free throw line.

Hermansville won the jayvee game, 70-22.

Box score:

HERMANSVILLE	FG	FT	PF	TP
R. LaCoursier	3	3	3	9
McClure	3	0	3	6

Rangers Host Detroit Team

Fresh from a well earned 4-3 upset over the talent loaded St. Paul Steers, the Marquette Iron Rangers will host the Detroit Griffins Saturday, Nov. 28, at 8 p. m. The Detroit team is made up of former Michigan State Hockey players plus some Canadians from Windsor and Roger Nordstrom, Jerry Boback and Sonny Bater, all former Marquette Sentinels.

The Griffins have excellent scoring punch in Art Thomas, Jack Roberts and Art Mustonen members of Michigan State's NCAA Runner-up team of a few years ago. They are augmented by Jim Seibert, big Detroit fireman who was a member of the 1960 United States Olympic hockey team and recently a member of the strong Waterloo Blackhawks of the USHL.

1. Card of Thanks

Anderson

We wish to express our sincere thanks to neighbors, friends and relatives for the assistance and sympathy shown us at the time of the death of our beloved wife, mother and grandmother, Mrs. Jack Anderson. We are especially grateful to Pastors Reuben Carlson and Gordon Thorpe for their comforting words, to those who sent flowers, gifts and cards, offered cars, to the pallbearers, the L.C.W. of First Lutheran Church and all others who by word or deed assisted us at this time. The memory of these kind acts always will remain with us.

Signed:
Husband, children and grandchildren

Eben Wins Two In Row

EBEN — The Eben Eagles registered their second straight Central League victory of the season Tuesday, trimming defending champion Nahma 80-45.

Coach Jim Depew's cagers raced to an early lead and reserves began to see action in the second quarter. The Eben bench provided 41 of the total points in the game. Andy Freberg led a dozen Eben scorers with 13 points.

Terry Larscheid of Nahma was the individual scoring leader with 30 points.

Eben won the jayvee game, 37-27.

Thanksgiving

And the cynic says: "What is there to be thankful for?

"What is there to be thankful for when so many are idle and sick and weary?

"Why is there cause for thanksgiving when so many are hurting and killing others in hatred and fury, and wars prevail, and turmoil and strife are stirred by those who have no wish for peace?

"How can we give thanks when crime and violence and disunity thrive in our own country, and many people are forsaking brotherly love and the dignity of law?"

★ ★ ★

The cynic fails to see the vast majority of men yearning and praying and striving for peace. He does not take into account that for every man who breaks the law there are thousands who respect and obey it.

The cynic is unmindful that more and more people are at work, and that society is adjusting to the space age with remarkable facility and less discomfiture than had been feared.

He overlooks America's inherent strength and its ability to heal internal differences and stand fiercely united in the face of common danger.

He ignores the advance in public welfare and the daily countless evidences of man's charity and compassion for those in need.

★ ★ ★

Nothing to be thankful for?

No thanksgiving that our country is free and strong and unyielding in its fight for peace?

No cause for gratitude that we are facing up to our problems with candor and sincere determination to solve them?

No thanks that never has there been a time when life in America offered more excitement, more opportunity, more promise?

When or where has there ever been greater cause for gratitude?

Let us offer thanks.

Bible Simplified

"And he called unto him the twelve, and began to send them forth by two and two; and gave them power over unclean spirits; and commanded them that they should take nothing for their journey, save a staff only; no scrip, no bread, no money in their purse: but be shod with sandals and not put on two coats."

This passage from the Gospel according to St. Mark (King James Version), with its strange syntax and punctuation, is heavy going for many people. Much more readable is the following:

"He called his twelve disciples together and sent them out two by two. He gave them power over the evil spirits and ordered them: 'Don't take anything with you except a stick; no bread, no bag, no money in your pockets. Wear sandals, but don't wear an extra shirt.'"

The latter is from "The Right Time," a newly published translation of Mark into everyday American English.

The translation is the first in English ever undertaken by the American Bible Society, which for years has been producing simple translations in foreign languages. Like them, "The Right Time" was originally intended for use overseas by the growing numbers of people who use English as a second language.

But it was judged so readable that it will be widely distributed in pamphlet form in this country as a first step in Bible reading for young people, migrant workers, new citizens and many others who find the traditional versions too difficult. Other translations of the New Testament books are in preparation.

The Family Lawyer

POLLSTERS IN COURT

In the year 1948, a judge was asked to decide whether the name of a certain girdle—designed for teen-agers—was unfairly similar to the name of a certain magazine, says the American Bar Assn. Would customers be confused? To find out, the judge tried a direct approach. Casting himself in the role of pollster, he put the question to a random assortment of teen-age girls. Their replies convinced him that confusion over the two names was not likely.

In those days, the business of polling was still in its adolescence. But today, numerous well-established organizations stand ready to probe the public's opinion on almost every subject imaginable.

Can their findings be used in court? There are dangers. The pollster is offering a kind of secondhand information, statements by people who are not in court to be cross-examined.

Yet those statements, gathered and tabulated and interpreted, may take on a new dimension. They may shed useful light on the state of the public mind, light not easily obtainable in any other way.

A poll of smokers may be informative, a judge has pointed out, even if it isn't as safe as putting the nation's 115,000,000 smokers on the witness stand one by one.

So far, courts have permitted such evidence most often in cases involving public identification of a particular product or brand name.

But there have been other uses too. In litigation over a change in traffic laws, the court took heed of a poll showing the travel habits of bus riders. In a case involving broadcast rights, the court allowed evidence of a poll on the effects of television on attendance at fotball games.

This much is clear: a court will not accept evidence by poll unless the methods of gathering the information are sound. Slapdash surveys, perhaps good enough to get by in the political arena, will not satisfy the law. The sampling must be scientific. The interviewers must be qualified. The questions must not be loaded. One court rejected a survey because Questions No. One and Two were likely to soften people up for a favorable answer to Question No. Three.

But if the poll is done properly, and can clarify the issues in the case, courts are tending increasingly to accept the results as valid evidence — not conclusive, but at least worthy of due consideration.

A WHITE CHRISTMAS?

CHICAGO (AP)—While most Americans were buying sunburn lotions during the hot months, highway authorities perspired over estimates of rock salt purchases for snow removal.

According to the Salt Institute, highway clearance crews will use about 3.9 million tons of salt during the coming winter. Some of this salt has already been delivered, the rest has been ordered by state, county and municipal purchasing agents.

Institute statisticians point out that 3.9 million tons of salt can melt as much as 1805.7 million tons of snow.

For All Our Blessings We Give Thanks

Washington Comment

By RAY CROMLEY

WASHINGTON — (NEA) — The mood here is for an attack on North Viet Nam.

I find this among military and civilians at the Pentagon and the State Department and among some men close to the White House.

The decision to attack the north has not been made officially.

At President Johnson's order, teams of tired men in the Pentagon and the State Department have been working 18 hours a day, seven days a week to get recommendations ready by the time Ambassador Maxwell Taylor returns from Saigon shortly.

But as one high official puts it privately, the war is going so badly that something must be done "to keep the situation within bounds."

In the past few months, he says, the Reds have stepped up their shipment of men and arms from the north into South Viet Nam along the Ho Chi Minh trails and by sea. They have begun to ship in "heavier" equipment.

★ ★ ★

His estimate is echoed by key officials through the government. They now put it this way:

The war can't be won by attacking North Viet Nam. But unless North Viet Nam is attacked, the war can't be won in the south.

You can't lick the Viet Cong, these men say, so long as they have a continuing source of supply of new officers, organizers and equipment from Red Hanoi. As fast as you kill off their trained noncommissioned officers, new ones move in. As fast as you knock the heart out of one group, a new organizer appears.

★ ★ ★

Until recently, some of these same men insisted that attacking the north would do little or no good.

How to carry out any attack hasn't been agreed on.

Some officials and officers argue for bombings. They have the targets picked. They've decided on the planes and the units to do the job.

Others argue for a sharp increase in agent penetration. Some agents would have immediate objectives—bombings, sabotage, propaganda — for quick effect. Most of these men would quickly be captured and killed, but it's argued they'd do considerable psychological damage. Other agents would infiltrate deep into North Viet Nam and lie low. Their missions would be a year or two off. Their work could eventually pay off heavily in sabotage, destruction and disaffection.

★ ★ ★

Some officials want to beef up loyal Laotian attacks on North Viet Nam's Laotian "volunteers," heat up that war to keep Hanoi preoccupied.

Others argue for a strong naval blockade combined with attacks on supply depots.

Most officials I've talked to want a staggered attack. Do a little, wait and see what happens, then do a little more. This gives Red Ho Chi Minh a chance to think and gives us time to watch for Red China's reactions.

Some favor timing the attacks to new Red incidents, such as the Tonkin Gulf affair in which U. S. warships were rushed by Red torpedo boats.

Others insist that attacks on the north should be timed so as to best help the new Saigon civilian government.

These differences are tactical. I found no officials or officers I talked to against an attack, except one who suggested we ought to look for some way to get out of Viet Nam altogether.

Fencing Used To Treat Boys

ANN ARBOR (AP)—The University of Michigan Medical Center disclosed it has been using fencing for the last year as a therapy in treating boys aged 11 to 14 in its psychiatric hospital.

Dr. Andrew S. Watson, a staff psychiatrist, said he believes skill in fencing "can improve a child's self-esteem and provide a psychologically legitimate outlet for agressiveness."

He said the sport also teaches body skills which he reported are helpful for successful adjustment to life.

Twice a week, selected boys don masks and protective jectets for a rigorous workout with Benjamin L. Maxwell, recreational therapist. Half the young fencers are "in-patients" and half come from the hospital's day-care program.

They learn use of the foil, the fundamental fencing weapon, but Maxwell and Phyllis M. Doyle, department supervisor, occasionally demonstrate with epees and sabers.

Dr. Watson said many of the boys were attracted to the program because it was an exciting adventure and added that during the first year participants gained marked skills and self-assurance.

STEEL PIONEER

The first reliable plate wheel for railroad cars was produced by George G. Dobdell, a 19th century inventor and foundry owner in Wilmington, Del. His invention replaced the spoke wheel, saved mony for the railroads and increased safety of railroad travel.

So They Say

Some may single out its weaknesses and others extol its virtues. But no one denies the need for its existence, since it is no longer possible to think of a world without the United Nations.

—U. N. Secretary-General U Thant's on the UN's 19th anniversary.

Living in New York as I do, the atmosphere is so contaminated that you don't have to be afraid of tobacco.

—Dr. Severo Ochoa, Spanish biochemist, on why he smokes despite cancer danger.

I call upon the youth of all countries to assemble four years from now at Mexico City, there to celebrate with us the games of the 19th Olympiad.

—Avery Brundage, president of the International Olympic Committee, at the close of the Tokyo Olympics.

Glory gives herself only to those who have always dreamed of her.

—President Charles de Gaulle of France.

All countries realize that the United Nations represents their only hope of conciliation and that it is the only worldwide organization capable of bringing about equitable solutions of situations that seem bound to end in violence and disaster.

—Carlos Sosa Rodriguez of Venezuela, president of the U.N. general assembly.

His patriotism knew no partisanship.

—President Johnson, on the death of Herbert Hoover.

This is dead serious. Mr. Khrushchev would be a greater draw than the Beatles.

—John S. Smith, Australian promoter who has offered Khrushchev $200,000 for a humorous lecture tour through the United States and Australia.

In politics, 90 per cent of the talk is by the men and 90 per cent of the work is by the women.

—Robert F. Kennedy.

The Doctor Says:

Method Saves Fluorides

By Dr. Wayne G. Brandstadt

In a recent column, I stated that water softeners remove fluorides from the water. There are two ways to soften water. Where the lime-soda method is used, iron may be removed from the water along with the calcium and magnesium. The precipitated iron will take with it some but not all of the fluorides in the water. The lime-soda method, however, has been replaced in many communities by the use of ion exchange resins. This method of water softening has the advantage of not removing any of the fluorides.

Q—My doctor looked into my bladder with a cystoscope and found that I had Huner's ulcers. The pain is severe and so far the treatments have not helped. What do you advise?

A — Hunner's ulcer is a persistent type of bladder lesion that is hard to heal. Local treatment of the ulcer through the cystoscope offers the best hope for cure. If the causative germ can be identified, an appropriate anti-biotic can be prescribed. Furthermore, an infected diverticulum in the colon may idritate the bladder and keep the ulcer going. If such a cause exists, it, too, must be treated.

Q — I'm a housewife. My doctor is giving me Tal Estamine. What is it for and has it any harmful side effects?

A — This is a combination of an estrogen (female hormone), scopolamine (the sedative used to induce twilight sleep) and a barbiturate. It is given chiefly to relieve the unpleasant symptoms of the menopause. The dose of any estrogen should be carefully adjusted to your individual needs. For prolonged use, an estrogen without added barbiturates should be used because all barbiturates are habit forming.

Q—If a person had a cancer in one breast and it was removed would cancer be likely to develop in the other breast?

A—Although cancer rarely develops in a second breast, it can happen. Much more likely, however, is that the victim of a breast cancer will get cancer in the bones, adrenal glands, lungs or liver. That is why it is so important to discover a breast cancer early in its development and have it removed completely as soon as possible.

Q—I have been told that syrup of iron iodide would help clear acne. Is this true?

A—Iodine in any form is more likely to aggravate acne.

Memory Lane

By J. R. LOWELL

Ten Years Ago

Robert Dahms, son of Mrs. Johann Dahms of Manistique, is receiving treatment in an Edmonton, Alta., hospital. He was hurt in an accident while enroute home from Fairbanks, Alaska, while traveling on the Trans-Canada highway.

Thanksgiving turkeys will be reasonable in price and plentiful. Oven ready birds are selling for 39 cents for toms and 49 cents for hens. Other holiday fixings are also priced accordingly.

A3/c Donald C. Harrison, son of Mr. and Mrs. Earl Harrison of 1310 N. 19th St., Escanaba, has been assigned to duty at the Amarillo Air Base as a jet mechanic.

Twenty Years Ago

Capt. John R. Pepin, son of Mrs. A. J. Pepin, 409 S. 8th St., was killed in action while treating a wounded soldier under fire. A letter from the division colonel recently received by the young man's mother, confirms this.

A. C. "Al" Christensen is assistant Scoutmaster of the newly organized Boy Scout troop sponsored by the First Methodist church.

Donald Fagan, 8-year-old son of Mr. and Mrs. William Fagan, of Manistique, was playing in the middle of Deer street and like so many youngsters, became so intent on his play that he failed to heed the traffic. He was hit by a car and carried for some distance. The driver of the car took the child to the hospital. Not as much as a bruise or a scratch was revealed.

Thirty Years Ago

At a special meeting of the Munising city council, with members of the Business & Professional Woman's Club also present, the council decided to turn over the old city hall for community purposes. The women's organization will assist in the project by constructing a 24x36 addition to the structure.

A group of members of St. Francis Hospital staff are in Peoria, Ill., attending a special religious observance at the mother house.

Arthur Brayton, wholesale sales and production manager of Marshall Field Co., addressed the membership of the Escanaba Chamber of Commerce last evening, enlarging on the theme: "Opportunities Right Now."

Newspaper want ads are a big sell! Eight hundred million was spent on classified ads last year . . more than for all television spot announcements or radio advertising.

Ann Landers

Hunting Widows Given No Hope

Dear Ann Landers: The letter from the "Widow of The Hunt" was interesting.

For 17 years I've been married to one of those hunting nuts. I now know I can do nothing to change things, because Gilbert has made it clear that hunting comes ahead of his wife, his children, his dying mother, his job, and his religion.

I had plenty of evidence of what I was getting into before we were married but I was too dumb to recognize it. Gilbert's idea of a date was to take me down to the city dump and shoot rats. This is how he kept his shooting eye sharp.

I think your advice was good, Ann. You told Widow of The Hunt "that which cannot be cured must be endured." You are SO right.—ANOTHER WIDOW

Dear Widow: Thanks for writing. I heard from hundreds of other hunt widows who were furious because I didn't order their husbands to stay home. Now really, girls—if your husband won't stay home for YOU, they surely won't stay home for me.

★ ★ ★

Dear Ann Landers: I am a perfectionist. Everything has to be just so or I am uncomfortable.

I am a high school junior and make good grades, but I waste a great deal of time on petty details. For example, I can never cross out a word. I must erase it, even if it is in ink. This goes for lists I write to myself to remind me of things. Nobody sees these lists but me. Last year's notebooks are still piled on my desk because I want to add a few things.

I also expect perfection from my friends. If a boy's hair is not just so I mentally cross him off my list. If a person says "He don't" I can't stand it.

Why am I like this? What can I do about it? I know it's not normal but how abnormal is it?—FUSSBUDGET

Dear Budget: I don't know how abnormal it is because I don't know what else you are doing—or leaving undone—as a result of your compulsive drive for perfection. You get satisfactions from these small and "nutty" demands which you should be getting elsewhere.

All of us have odd quirks no matter how well concealed. When the quirks take over and keep us from functioning on a day-to-day basis, then professional help is needed.

★ ★ ★

Dear Ann Landers: I'm writing this letter as a warning to teen-agers, especially girls. Please tell them that drinking liquor is the most supid thing a teen-ager can do.

I am 17 and have aged 10 years in the past six months. Last summer I started to drink to prove I was a cool kid. Every weekend from May through August I was bombed out of my mind. Finally my boy friend said if I didn't stop drinking he wouldn't take me out anymore. I told him that was fine with me, that I'd find someone who would.

To make a long story short, I began to run with a bunch of swingers and we got into plenty of trouble. I lost my reputation and the respect of all my friends. My boy friend dropped me. I caused my parents heartache and cost them money they could have spent on other things. As if this wasn't enough I almost lost my health.

I'm trying hard to fight my way back and it's not easy. If this letter helps just one teenager to stay away from liquor I'll feel that I did some good in the world. Thank you.—ASHAMED

Dear Ashamed: You can live down a bad past if you work at it. Others have. Now that your head is on straight concentrate on the future, since that is where you will be spending most of your time.

★ ★ ★

If excessive drinking is wrecking your health or destroying someone you love, send for ANN LANDERS' booklet, "Help For The Alcoholic," enclosing with your request 20c in coin and a long, self-addressed and stamped envelope.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper enclosing a stamped and self-addressed envelope.

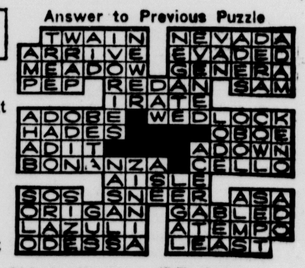
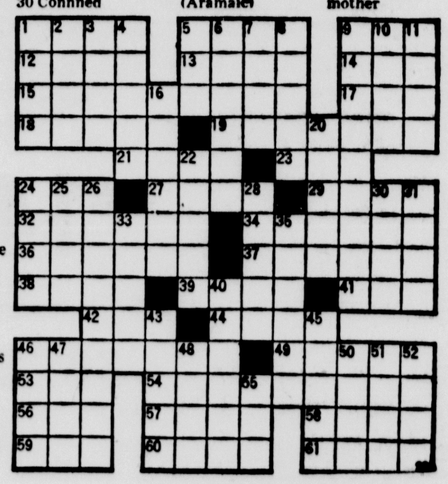
Answer to Previous Puzzle





They'll Do It Every Time

By Jimmy Hatlo

It's Done With Eggshells

TINSEL, RIBBON, small, artificial fruit (right) from the five-and-dime turn eggshells into different holiday ornaments. Here 10-year-old Susan Pfriender of Long Island, N.Y., pricks (top left) each end after shaking the egg to loosen membrane. Working up courage she blows contents (bottom left) into bowl. After rinsing and drying eggshell, she applies and glues trim in many designs.

By AILEEN SNODDY

The person who has been stymied once by a do-it-yourself project "so simple a 10-year-old can do it" has a show-me attitude from then on.

Eyebrows went up, for example, when someone proposed decorating eggs to use as Christmas tree ornaments. Putting the idea to the test was Susan Pfriender, 10-year-old daughter of a photographer for a magazine.

Nervous at first, Susan soon became adept at pricking both ends of a egg to blow out its contents.

Eggs may be left plain or dyed. Trimming can be almost anything. Use of two colors for each egg, such as green and gold, makes a simple but decorative scheme once all eggs are ready for hanging.

Essential tools include extra strong polyvinyl (white) glue, scissors, tweezers and toothpicks. For an antique look, use faded bits of ribbon, colored glass or cutouts from old Christmas cards.

To blow out an egg, shake it a few times to loosen the membrane. Make a pinhole in each end and blow the contents into a bowl. Loosen stubborn insides by inserting a thin wire into the egg.

Rinse and dry egg thoroughly. Work with each eggshell in an eggcup or large bottle cap. To apply glitter, brush glue completely over egg and roll the egg in the glitter. Let dry. Use tooth picks to apply glue in ribbons, beads and similar trimmings and stick these on the clean eggshell. Tweezers are a big help in placing small beads or sequins in position.

To hang the egg on a tree, mantel or in a doorway, insert two ends of a loop of thread well into the hole in the small end of the eggshell. Cover the hole opening with glue applied with a toothpick. Let this dry before starting to decorate.

Susan found she was all thumbs at first but soon got the feel of working with the delicate eggshell. And she soon improvised with decorating ideas of her own once she mastered the basic steps which her father found in his publication's 1964 Christmas Helps issue.

Place Dad Well Up On Your Gift List

If the Christmas buying habits of slightly less than 11½ million teen-age girls are a criterion, most American males (especially dad) will get the short and of the gift stick.

This sad fact was uncovered in a survey made by a leading teen-age magazine shortly after Christmas last year.

Only mom and the current beau were swamped. From reports it's a wonder they didn't get box-opening fatigue.

Fortunately the girls tried to keep a semblance of peace in the family. When they did, the survey shows, they spent slightly more than $7 for favored gifts of shirts and ties, socks, after-shave lotions, pajamas, tie clasps, sweaters, wallets, hankerchiefs, gloves and records for dad. The boy friend rated a gift costing more than $10, with sweaters and jewelry the leading items.

Not to spoil this holiday's unwrapping ritual, these two categories will hold their position as popular gift choices. Remember, then, to smile and act surprised as you try them on.

Big brothers were next in the male receiving line with their share (under $6) of sport shirts, socks and records while the little lads had to make do with under $5 worth of toys and games and again sport shirts as the most often selected gifts.

Just a note concerning sibling rivalry: The teen-aged girls said they spend more for little sisters' and big brothers' presents than for their little brothers' gift. Paraphrasing a well-known ad, only their analysts know why.

Another gift-giving paradox shines through at Christmastime, as the survey indicated. If daughter is the apple of daddy's eye, why does she neglect him? Shouldn't this adoration be reflected in his ration at Christmas?

In the shopping days before Christmas why not do more for the head of the house than empty his billfold?

He'll Warm Up To A Muffler

Dad, brother or husband will always appreciate a stylish muffler for Christmas. For the more contemporary minded young man there are handsome jacquards, abstract prints and textured woven styles. Dad will approve the more traditional foulards, paisleys, wool challis and tartans.

Any man will go for the solid shades or the reversibles that switch from solids to patterns. Long six-foot knit scarfs score with the college crowd.

Top This One: Gift Certificate For A New Hat

Looking for a gift that will really go to her head? A gift certificate for a new hat from her favorite milliner's is truly a thoughtful gift.

Styles are dazzling in variety, ranging all the way from casual berets to floppy brims. The perennial beret is worn in a multitude of ways . . . some berets cover the hair completely, others are worn in pillbox fashion or tilting forward to skim the brow.

Brims made news in a myriad of shapes and sizes. There are small tailored fedoras and swaggers a la Henry Higgins of "My Fair Lady" fame, plus large winged and sloping brims, oversized bretons and rollers; these, in addition to floppy double-faced stitched brims, are the exciting new silhouettes of the season.

Echoing the "My Fair Lady" look of the newer hat fashions are sleek caps that curve to fit the contour of the head. Turbans also recreate the romantic aura of the turn of the century with swirls and drapes, smoothed and rounded lines plus back detailing. Large bows, or jeweled and feathered pom poms often dangle from the crown.

Warm tones dominate the season's kaleidoscope with red and green leading in importance, seconded by the complete brown spectrum, plus shocking pink, pale turquoise, black and white.

Gifts With Sound And Eye Appeal

SOMETHING-FOR-THE HOUSE at Christmas takes many forms. Home entertainment equipment is popular, such as the wing-speaker portable stereo (left) whose changer flips down to playing position. Another thought is the plug-in transistor clock-radio (left, on shelf) with a walnut-grained cabinet. In a romantic vein is the oiled walnut sweetheart cedar chest (bottom right). A survey shows 80 per cent of the young women receiving such a chest from their beaux will be married within a year. A color television console (inset) is a perfect viewing gift.

By AILEEN SNODDY

The key to success as Santa at Christmas is to give your favorite girl a gift she wants but wouldn't buy herself.

Aren't there home items she would like but hesitates to buy?

Now is the time to ge her that new refrigerator-freezer that needs no defrosting, the washing machine that does almost everything but talk, a new vacuum sweeper or floor polisher. Or, she may hint for a new couch — one with upholstery that is easy to clean. When making a shopping list for a woman, think beyond the quick, last - minute gift of a toilet set, gloves or sweater.

If the gift is a major appliance or large piece of furniture, surprise her with a gift certificate. Even more welcome — let her pick out the item such as a new dishwasher before Christmas. It can be installed to help her with the holiday party cleanup.

Look for items with special coatings to make her cleanup job easier. Knife and scissors sharpeners, electric carving knives, home hair dryers, addition of holloware to her silver pattern all are thoughtful presents.

If you don't know where to begin your shopping list, look around the house. Jot down what is missing in the way of new items you see in stores. Determine which you think your best girl would like and use the most. Make that your major Christmas gift.

Talking Toys Newest Gifts

Toy shopping this year will take a keen ear as well as a sharp eye. For sound is the new dimension in toys for 1964.

Along with the usual sounds of excited children, a stroll through any toy store will uncover bicycles and tricycles that putt-putt like motor bikes, toy race cars that roar like Indianapolis racers, dump trucks and skiploaders that growl like heavy construction equipment, and dolls, toys, and games of all descriptions that bring forth sounds and whole sentences with no more urging than the simple pull of a string.

Actually there's nothing revolutionary about sounds in toys. They've been tinkling, popping, squeaking, clanking and banging for a long time. The new angle is realism in both sound and appearance. A few years ago dolls began talking and a whole new trend in realism was established.

Dolls, an all-time favorite toy, are a good example.

Even when dolls were saying "mama," they did little to help their youthful owners create new play situations. Then dolls began to talk, and they became companions rather than inanimate objects of affection.

At the tug of a string, dolls now say such play-stimulating phrases as "Let's go to the store," or "I'm sleepy, put me to bed."

Another reason for sound is that today's children are more sophisticated in their knowledge of playthings. They're exposed to more toys than ever before, and to catch and hold their attention a toy must really provide fun. With fun coming from sound, some of the new items for Christmas are quite an earful.

Talking dolls of all kinds are still tops in popularity. And along with the familiar baby dolls, there are now such popular cartoon characters as Bugs Bunny, Bozo the Clown, and Woody Woodpecker in talking doll or puppet versions. There is also a cute beatnik type doll in black tights and overblouse who rattles off catchy, if somewhat way out, phrases.

The newest of all talking toys are soft, cuddly animals with mouths that move when they talk.

The use of trinkets on the Christmas tree may date back to the early Roman days.

Use Personality In Wrappings

Wrapping presents can be the happiest part of the holiday season.

Traditional printed Christmas papers are great time-savers. But you can also wrap gifts in a one-of-a-kind way, by using striped paper, colorful tissue, foil glitter paper, even brown wrapping paper.

Along with the tyings and wrappings add mistletoe, hollyberries, pine cones, tinsel, stars, felt cut-outs, stencil designs or crayon drawings for superb effect, advises June Behling, art director of Whitman Publishing Company, producers of gift wrappings, ribbons and bows.

"Wrapping presents can be a sociable time shared by all members of the family. Even the youngest child likes to wrap a gift he has bought for a friend or relative. Wrappings with a personal touch are ideal for home-made candy, cookies or preserves. 'From-me-to-you' touches can be elegant on special gifts chosen for favorite people," she points out.

Sometimes the shape of a package suggests idea. A tapered package, wrapped in tissue, needs only a crayon-drawn angel face and two wings to be an enchanting sight under the tree. Or a tubular package could be topped with a cut-out "flame" to look like a large Christmas candle.

At other times, let the contents suggest your wrappings. A fruitcake, wrapped in solid green or striped paper, can be topped with a cluster of artificial fruit.

These inexpensive papers and novelty trims are available at drug, variety and department stores. Add your touch of care and flair for a personalized look. Stacked under the tree, packages like these are as fanciful and colorful as the ornaments above.

They Clap Hands Over Gift Gloves

To prove you're a St. Nick with a knack for choosing the right gift, pick "his" or "her" leather gloves this Christmas. Available in hundreds of styles and colors, soft, supple leather gloves are always welcome fashion accessories for the well-dressed lady or gentleman.

Leather gloves in kid, doeskin, or suede will have feminine hands clapping for joy, whether the gloves are given as a gift in themselves or as an extravagant "extra" tucked into a new leather handbag. Womens gloves come in a variety of lengths this season, ranging from the wrist-skimming shortie to the 16-button leather glove that extends past the elbow.

That fashionable fellow on your list will appreciate smart-looking gloves in smooth, suede, or grained leathers . . . these are available in light and dark shades, from oatmeal and natural to deep brown and black. Distinctive features include slit cuffs, piping and removable knit liners that team with leather gloves for a two-in-one gift. For a more formal look, give gloves of silk-lined grey suede and black fawn.

There are many gloves especially designed for driving comfort as well as good looks. The ladies will appreciate the combination of safety and smartness in "split leather" or pigskin styles, while men will go for all-leather and leather-palmed gloves, or new styles that feature vented knuckle straps or perforated leather backs for extra freedom of movement.

It goes without saying that any of these glove gifts are sure to get quite a hand on Christmas morning.

PLUMB JUICED

PUEBLO, Colo. (AP)—Plums led to the downfall of three convicts escaping from the Colorado prison honor farm. Before their getaway the men drank freely of a brew concocted from plums picked on the farm. They were caught soon after in a highly intoxicated condition.

Whether she's 16 or 60, she'll appreciate a gift for the bath. Crystal mist and dusting powder in a gay holiday package (upper left) is sure to make a hit at Christmas. The return of the large leather bag (upper center) for late afternoon dates opens up a wide selection of gifts for that special lady on your list. If this is the year in which mom finally gets her long-desired little fur, she may delight in this Autumn Haze Emba, natural brown mink shoulder wrap (lower left). The gal who loves fine jewelry will enjoy something different and elegant. Swiss watches take on a new high style this year. This one (lower center) is a mesh plume, edged with diamonds. A fragrant idea to please girls of all ages is a gift of real French perfume in a pretty atomizer (right). It will give a gala lift to all holiday parties.

New Crop Of Gifts For Gals Of Any Age

By HELEN HENNESSY

New York — (NEA) — Poets speak lyrically of roasting chestnuts and gaily decked halls as harbingers of Christmas. The rest of us have other ways of telling that yuletide approaches.

Feet ache, confusion becomes a way of life and the merry sound of "Jingle Bells" sends us running for the aspirin bottle.

Shopping for the fair sex is an especially taxing chore for there is a baffling number of items to choose from in every price range. So for puzzled husbands, busy mothers, ardent swains and the gals who must fill the office grab bag, here are some advance pointers about what you'll find in the stores.

For any gal on your list a gift of beauty is always welcome. Perfume, in the large size for her dressing table or in a pretty atomizer, is a good choice.

The ingenious man will find out her brand and scent preference. But if this can't be done, ask the salesgirl to let you have a whiff of a few different kinds. When she hits on one YOU like, buy it for your lady fair. Tell her you would be pleased if she would wear it just for you. It's bound to be a success with that approach.

For stocking stuffers or other small gifts, there are pretty nylon net caps for covering hair rollers, bath brushes and bath toiletries. And for a grab bag, you can stir up some fun with the new lipsticks that not only come in fruit shades, but taste like the fruit they're named for.

A good leather purse is another sure-fire hit. And here is a tip for the gentlemen — shoulder bags are big fashion items this season.

The newest designs in both costume and fine jewelry take the form of reptile pins and bracelets, copies of antique jewelry and swinging drop earrings for discotheque dancing.

A word to the man who decides this is the year to fulfill mom's desire for a small fur. Either let her choose her own or make sure you go to a reliable furrier. We're nearly all neophytes in the animal kingdom and it's so easy to be bilked.

Women shoppers will be weary, but they'll cope. A man turned loose among feminine frippery is, indeed, bewildered. He would be wise to attack the problem by lounging in a comfortable chair, equipped with pad and pencil and a copy of the local newspaper to show him what the stores offer.

Thus, armed, he may preserve enough of the Christmas spirit to add a strong baritone to the family's rendition of "Silent Night."

The U. S. Army Chaplain Corps was founded in 1775.

Today's Toys Reflect Times

Science and the affluent socity have been the biggest contributors of ideas for new and exciting toys this year. Notable in the new playthings are the variety of advanced designs of rockets, U-2 planes and luxury model sports racers, all in modestly priced play replicas.

Auto racing abounds with new wrinkles to add to the excitement of this game - room sport. Switch lane action dependent on speeds is a new development. A slot-lock system permits cars to spin and slide. Biggest layout is an 88 piece tri-level set. Among the new elaborations of racing setups is a phonograph record of racing sound-effects.

For the boy who has everything there are 11 car garages to house the variety of new foreign sports racers. If Dad has just purchased or is eyeing a new power-mower, select the toyland counterpart in power mowers.

For dog and horse lovers there are kennel trucks and horse-vans equipped with vista-dome roof designs, a true luxury in trucking play.

National defense has inspired a wide variety of new play equipment. A new missile launcher truck of heavy gauge steel exactly reproduces U.S. Army models and has a searchlight truck companion piece, also with clear plastic roof.

There are guerilla warfare astronauts' suits and first-aid battle kits. An ingenious new gun design transforms into a series of seven weapons. The anniversary of World War II has inspired some historical designs and GI Joe is reported to be giving the cowboy a run for popularity honors.

Also new in the science sector of toyland is a breathing man who illustrates the ill effects of smoking! And for would-be doctors there's a new microprojector for tracing outlines of specimens and an operating stereoscope.

Home-made items were the first decorations to be used on Christmas trees in the early nineteenth century in the U.S. Such trimmings were small cotton tufts, strings of popcorn and cranberries, flowers, paper ornaments and the like.

A GROUP OF Escanaba women who enjoy Christmas handcrafting turned out these decorations for their homes. The exhibit includes two white flocked trees made of pine cones, a tree made of angel hair, little holiday figurines for a table decoration and a wall piece made of a phonograph record bordered with clothespins and bearing a floral spray made of weeds. (Daily Press Photo)

Yule Bells Can Be Fire Bells

It takes about five seconds for the needles of a Christmas tree to vanish in a flash of flames. The lives of many small children vanish with them, every Yuletide. According to fire safety experts approximately 3,000 children die from effects of burns each year. Nearly 12,000 children are hospitalized annually with severe burns. A staggering total.

A tragic number of these children were laughing with the joy of the Christmas season at the time they were burned as a result of various holiday accidents.

Until recently the only hospital in the nation that specialized in burns treatment was an army medical center in San Antonio. For years many doctors have called burns "the greatest un-met medical need in the U. S."

Now, the Shrine, the same fraternal organization that operates 17 hospitals for crippled children, is using its resources to plug this gap in medical treatments and facilities. They've begun constructing the first of three Shriners Burns Institutes that will cost a total of $10 million to build and some $4 million a year to operate.

As interest of Shriners in the new Burns Institutes mounts, so does membership in the fraternity. This year it has passed the 835,000 mark, an all-time high, as more and more Masons join the organization that is famous for its fun as well as its philanthropy.

Construction started last summer on the Burns Institutes in Galveston, Tex. An interim unit already is operating in existing facilities there, as they are in Cincinnati and Boston — sites where the other two Burns Institutes will have various functions — saving children's lives, and instruction of physicians. The Shrine's Imperial Potentate, O. Carlyle Brock, commenting on the need for progress in burns treatment, observed that there have been few major medical advances in the burns area for many years.

"Shriners gladly contribute to this cause so children's lives many be saved and new methods of treatment found. These children admitted are not required to pay for treatment. This is the same policy as in the Shriners Hospitals for Crippled Children. where worthy children are admitted regardless of race, creed, color. And more and more money is being received through the wills and bequests of Shriners and non-Shriners."

The Shrine knows there is little hope for any quick, substantial reduction ifn the number of burned children. But they hope that stressing extra care at Christmas will at least prevent many of the most tragic burns cases — tragic because the pain they cause contrasts so cruelly with the joy of Christmas.

Woman's Watch Reveals Taste

This year, more than ever, a woman's watch tells more than the hour. It tells of her tastes, her appreciation of lovely jewelry and her fashion know-how in coordinating costume accessories, observes the Jewelry Industry Council.

Styled for fashion appeal and built for many years of accurate timekeeping, fine jeweled watches come in distinctive shapes, sizes and finishes. Thanks to modern design, it is no longer necessary to limit one's choice to a round or square shape, for there are now many others new and exciting, including the marquise, octagon, tear-drop, pear, oval, clover-leaf, circle-in-a-marquise and diamond. Today's watches come in white gold and yellow gold, as well as the popular muti-colored gold, and the finishes include Florentine, matte and polished, in addition to combinations of these

For added jewelry elegance, many of the new watches have beautiful woven mesh bracelet-type bands. Another important trend is the bracelet watch . . wide, hinged or flexible. The multi-faceted crystal continues to attract admirers, since it adds sparkling beauty to the face of every watch, while some have jewel-studded lids which ingeniously conceal a time-piece. Diamond watches are quite popular, of course, and are priced far more modestly than most shoppers realize.

Watch-bands have also taken on a fashion aura and are designed to show timepieces off to best advantage. Newest styles are extremely thin, of tapered mesh, and have almost a "solid gold" look. They feature flexible links for extra ease and comfort; a small expansion section under the clasp makes them easy to put on or take off.

Whatever the lady's tastes in watches, you can be sure there is a watch designed to please her.

Fishing Tackle Sure To Catch

Receiving fishing tackle at Christmas time truly warms the heart of any sportsman. If there's a fishing buff on your Christmas list just forge ahead and "tackle" the problem.

Reels with automatic transmission systems, mechanical brakes, and floating bearings are among the newest aids to the fisherman. High speed spinning reels that gather in line at a five-to-one gear ratio . . . 4 completely new revolving spoon reels for salt water angling . . . Small—but rugged—bait-casting reels that weigh only 6½ ounces . . . Spincast reels with automatically adjustable drags . . . Two completely new series of power-packed hollow fiberglass rods. These items mentioned are only a few of the many fabulous items aavilable to the angler. Good news for you, the shopper. Prices range to fit your budget.
